FOREWORD

The first milestone of life is now passed. Every thought, every deed has been a step toward that end.

Our character and reputation have been molded, and we alone know how.

Now we sit under the heavens, enshrouded by noiseless, vesper shadows pondering over our future, while the Moon sheds her blessings down upon us in soundless inspirations.

The whippoorwill utters its plaintive call, starting us from our reverie.

Our minds are at ease. We shall continue our education by profiting by the mistakes of others so that their lives may not have been spent in vain.

We sincerely hope that you will enjoy the 1929 "Mirror" and that it will prove satisfactory in every respect. The aim of our yearbook is to reflect to you the events of school life which all hold so dear in their castle of memories. If we have accomplished this our time will not have been spent in vain.

With all sincerity,

SENIOR CLASS

Mother and Dad

The little we can do to show our love for you, is slight indeed—but may it be accepted with a real sincere feeling of gratitude. There's money, jewels, and luxuries, but all of these could never bring to you the message the class of "29" wish for you to receive from our little masterpiece "The Mirror." We have used our hands, you gave us, to make it possible to bind within this cover the truth of our real selves, to really show you why we have friends and why we love our high school companions. We also used the hearts you gave us to put a real message into it—that there might be some way of showing our love for you. With hands, hearts and souls we hope to reveal the true characteristics with which you have endowed us.

ADMINISTRATION

The Faculty has been our fort of refuge and protection. Through their love and patience have we aspired and by them are we able to overcome the evils and temptations of our High School life.

EDITORIAL

We have chosen as our subject, "The Youth of To-day," because it is of paramount interest to everyone, especially to those who are about to venture upon the sea of life where there are no harbors.

Many of the present generation believe that we never think deeply but we have our trials and troubles and meet them squarely. We do enjoy life to the fullest extent and many of the things that are said about us are far from true.

We all know that not all on board this ship, called the "Next Generationers," are what the present generation think of us. No, by no means, that group comprises but a small minority of the young people of our America. There is a great majority that sail in the right course and will better the conditions of the boat by their presence.

In the manufacture of the bolts for the ship, without doubt, there was a certain percentage of them that were failures. Nevertheless, look at those that were successes. Youth is the same way. But why criticize them, anyway. It really gets you nowhere. Life isn't meant to be like that. Even you, the fault-finder, feel worse after you have spoken than before. If you do not, you should!

If those who criticize us would only look back upon their lives when they acted the same way and did not like to be censured by their parents.

The youth of to-day are preparing themselves for the future. Never before were there so many young men and women working their way through colleges and universities in order to fit themselves for the time that they will be summoned to stand their watch at the wheel and keep the ship away from the rocks.

Harold Bell Wright, a favorite of most readers, believes that the flames of flaming youth are lighted at the home fires. And isn't it true that the present generation say they are the results of their parental training? Of course. And so, also, are the Next Generationers. Then why do they censure our actions?

We wish to make a plea for the youth of today. Let us not, in our sail upon the sea of life, neglect the small things and just hit the high spots. Don't be in such a hurry to get from here to the next port that you do not notice the "in-betweens" for these will make your life even happier.

We firmly believe that in the lively spirit of the youth of today is the seed of a civilization far better than that of today. Let us follow the right course across the sea in our sturdy ship, and by all means, let us germinate that seed!

THE BOARD OF EDUCATION

The Board of Education of Montpelier is composed of the following members: Dr. J. B. Dwyer, Dr. W. H. Steele, C. J. Bohner, E. H. Pownell and A. J. Brown. Each member has served on the Board for a number of years and their experience has been a valuable asset in their part of the Administration of the schools. These men are energetic and resourceful in their own line of endeavor and to them much of the credit is due for the splendid condition of the Montpelier schools.

Our Board of Education serves this community without compensation and their only reward is the satisfaction of a task well done and the appreciation which the community gives them.

This Board has handled the affairs of our schools in a business like manner practicing economy but at the same time having the well being of the pupils uppermost in their minds. Our buildings have been repaired, provisions made for the retirement of our debt and the way has been paved for a future reduction in taxation. This community is to be congratulated in having an efficient Board of Education.

OUR SCHOOL

In the past five years our schools have made a marked improvement not only in the standard of work required for graduation but all of the departments have been strengthened by securing Instructors who have specialized in their respective lines of work. Our graduates who are entering College and business are meeting the demands placed upon them in a very creditable manner. Our schools both Grades as well as High School meet all the requirements of the State Department and the North Central Association of Colleges and Secondary Schools. Many honors have come to us in Athletics—Literary Work —High School Annual—Smith-Hughes Contests and Commercial Departments.

Physics is the Science of Matter and Energy and their relationship to each other. The aim of this course is to stimulate the pupil to do some thinking on his own account about the hows and the whys of the Physical word in which he lives. In a word it is an effort to help the average person so that he can adjust himself to his surroundings and to interpret his own experiences correctly. The study of Physics is becoming more popular and more necessary each year due to the many and rapid changes in our mechanical and industrial world. The mechanical devices used in the home and in business makes it necessary that every boy and girl should be acquainted with the principles and laws that govern these modern inventions.

ALGEBRA

Algebra, the author of our text states, is the study of an efficient use of numbers by the aid of letters and other symbols.

The aid or use of letters and symbols is increased two-fold by the introduction of negative numbers. Following the introduction of negative numbers the fundamental operations performed in addition, subtraction, multiplication and division are acquired. Along with these operations the author has introduced equations. Following the fundamentals short multiplication, simplifications, factoring, fractions, fractional and literal equations, simultaneous equations and graphs are given. The text concludes with a discussion of square root, radicals, exponents and quadratic equations.

Algebra shortens the work and solves problems which could not otherwise be solved. The pupil is taught to understand that the world and life itself is an equation which each individual is trying to complete in a satisfactory manner.

LATIN

The Classical Studies are regarded as the true foundation of broad culture. Theodore Roosevelt said, "In no other country is it so necessary as in our's to provide fully for those who have the chance and desire to take it, broad and liberal education in which one essential element shall be classical training." The pupils of Montpelier High School have the opportunity to study the Latin for four years, including in the course, Cicero's orations and Vergil's epic poem the Aeneid, to which innumerable allustions have been made in English Literature. It is with, therefore, this idea of broad culture and liberal education, that we offer and recommend a four year course of Latin in the High School.

The courses offered in the department are: Latin I. This course includes a careful study of the essentials of Latin Grammar, development of pronunciation, writing sentences and as much practice as possible in reading connected discourse. Latin II. Caesar's Commentaries. This course includes in the first part a review of the essential facts of grammar and the presentation of more involved syntax. In the second part it includes the translation and interpretation of Caesar's Commentaries with a view of the customs, languages and institutions of the Gauls and Germans. Latin III. Cicero's Orations. This includes the orderly translation of the Catalinarion orations and selections from the other orations of Cicero. In this course also the development of Roman political institutions is studied at length. Latin IV. Vergil. The Aeneid Books I-VI. Translation and interpretation with the study of the metre and style. Special attention is given to scansion. Students in this course are required to write a term paper as one of the requirements of completing the course.

PUBLIC SPEAKING

The Department of Public Speaking was instituted three years ago in Montpelier High School. The course has enjoyed continued growth in popularity as well as in value and the results of the training given in this department are manifesting themselves in numerous ways in our High School.

Public Speaking I. This is a basic course designed to promote knowledge of, and proficiency in, speech. A consideration of the elementary principles applicable to such activities as private speaking, oral reading, acting, public speaking and debating, with practice and criticism in various types of speech. Open to all students except freshmen.

CHEMISTRY

The course offered in Chemistry is very general in its scope. Five hours are required each week, ie: three hours for recitation which is supplemented by two hours of laboratory. The subject matter starts with the general scope and field of Chemistry, and the relationship of Chemical application to civilization and everyday life. Most of the study pertains to the familiar elements and compounds containing them, which is entirely within the field of general Chemistry. About two week's time is spent in study of Organic compound extending from the simple Hydrocarbon methane series on up through the more complex Fatty Acid series. The course at its completion is further supplemented with some analytical determinations.

In this course much of the technical matter is sacrificed for material having more practical nature; endeavoring thereby to bring the field of Chemistry within the scope of the experiences of the average pupil.

PLANE GEOMETRY

Geometry differs primarily from other courses in mathematics in that it deals chiefly with study of forms such as triangles, parallelograms, and circles. However many facts stated in Arithmetic and Algebra are proved in geometry. Plane geometry differs from other courses in geometry in that it deals with figures in one plane. The course starts with definitions of various figures as lines, squares, circles, etc., which is followed by axioms and postulates. These definitions proven axioms, and accepted postulates constitute the foundation for geometry. The course then continues with its principal study, that of the study of propositions. Book One deals with rectilinear figures having thirty-five proposition for solution; Book Two on Circles and constructions has twenty-three propositions; Book Three has twenty-two propositions in proportion and similairty; and Books Four and Five on Areas of Polgons and relation to circles have twenty-six propositions of which twenty are selected. Exercises and corallaries are given supplementary to these propositions which offer excellent opportunity for initiative and development of a logical and reasoning mind.

ARITHMETIC

This course is primarily for Commercial students, but many pupils in other courses have been enrolled. The first semester is devoted almost entirely to the four fundamental phases of Arithmetic, i.e., Addition, Subtraction, Multiplication, and Divisions. A pupil's ability in these is tested by his accuracy, and speed in solution of problem offered. The second semester varies considerable in its subject matter. Material being chiefly problems of a financial nature such as Percentage, profit and Loss, Interest, Banking, etc.

Other material, such as fundamental and practical measurements, areas of figures, square root, is given. Rapid Calculation Pads are used throughout the entire year to help develop accuracy and speed in the pupil. The purpose of this course is to fit pupils for an elementary course in Bookkeeping which follows.

GENERAL SCIENCE

General Science, as the word implies is a study that delves a little into all the major branches of science. Its purpose is to train the young mind to think accurately and logically. Keen observation is stressed and geenral scientific conclusions based on experience are sought after. With the geologist we study the rocks; the physicist finds us versed in the phenomena of gravity, inertia and light; plants and animals draw our attention as truly as they do the biologist; we gaze at the heavenly bodies with a true conception of the earth's position; in the chemists laboratory we marvel at changes which seem like magic. Our minds become awakened to the usually unobserved things in life and a new appreciation of existence is the result.

MUSIC

Education is coming more and more to include the development of the whole child and his preparation for a larger contribution to social life. With this change the importance of music as a vocation and as a cultural resource for the hours of leisure becomes more and more evident.

In the grades the child is taught right vocal habits resulting in the acceptable use of the singing voice, the ability to read music at sight, a liking and preference for good music, acquired through singing, playing and listening. The High School course offers an opportunity for more advanced study—intelligent appreciation—perfection of technique and development of individuality.

BIOLOGY

What is of greater importance to man than his desire to undersand the meaning of life? This is the goal the biologist sets before him. Beginning with the most minute plant and animal life, step by step he climbs the ladder until he reaches man the highest, most intelligent living thing on earth. In the course of the study of the structure of the various forms of life he sees that the pattern of all life though variegated is fundamentally the same. A unity with all living substance is felt and a new interest in life is fostered.

High School Geography is a study of the physical aspects of the earth and their effects on the lives of the people. The principle countries are taken up and the progress of the different nations is seen to be mostly determined by their natural resources and climatic conditions rather than because of a greater endowed ability.

COMMUNITY LIFE AND CIVIC PROBLEMS

Besides the study of our governmental machinery, this course takes up the advantages and problems of group life. Our aim is to instill the proper respect for others within the group and to engender a personal sense of duty and responsibility for its success.

COMMERCIAL COURSE

The purpose of the Commercial Course is to train boys and girls so that, upon graduation from High School, they will be able to go out into such positions as secretaries, bookkeepers, salesmen, administrative and other various positions in the commercial world. The subjects offered in the Commercial Course are: Two years of Shorthand and Typing; one year of Bookkeeping and Commercial Arithmetic; one semester of Salesmanship, Commercial Law, Business English, Economics, Commercial Geography and Community Civics. Besides these, English, History, Science and other subjects are required. The required standard in bookkeeping is to cover the principles and practice work on Proprietorship and Partnership. In typewriting, to be able to type at 40 words net per minute for 15 minutes. In shorthand to be able to take dictation at 100 words per minute for 5 minutes on unfamiliar material. The value of commercial training to the student is great inasmuch as it opens to the student a field of advancement and success. The Commercial Course trains the student for a definite purpose, so that, upon graduation the student is trained to take a position in business that will mean his livelihood. Not only that, but some of these subjects are the very best in the way of thought provoking and developing the power of concentration. Since a large per cent of the available positions are in the commercial world, we can easily see the advisability of this training.

NIGHT CLASSES

Night classes in shorthand and typewriting started on Sept. 24, 1928. The class in shorthand was discontinued at the end of December but the class in typewriting continued through the entire school year. The classes met on Monday, Wednesday, and Friday nights of each week.

The following took four weeks or more of the subjects named: Shorthand: Mary McElgyun, Naomi Bechtol, Bee Miser, Ruth Summers, Alice Brown, Maynard Shaffer, Jane Fee, Julia Brandeberry and Beatrice Parnell. Typewriting: Lewis Meine, Walter Tingle, Pearl Boyer, Mary McElgyun, Naomi Bechtol, Bee Miser, Ruth Summers, Rose Britton, Virginia Kier, Nell G. Herriman, Laura Thomas, Alice Brown, Maynard Shaffer, Beatrice Parnell, Lorreta Chapman, Miss Marjorie Cox, Miss Marjorie Heth, Leota Rundell, Mildred Nye, Mrs. Boone and Dorothy Canfield.

HOME ECONOMICS

Home Economics or Home Making is the oldest, best known and most inclusive profession the world has ever known. It has been for many years studied under the name "Domestic Science." The home should be the centralizing power of all that love and hope and joy are capable of bringing together. The courses offered in the Home Economic department this year are Elmentary Sewing for Freshmen, Elementary Foods for Sophomors, and Interior Decoration for Juniors. Last year Home Nursing was given to Seniors under the supervision of the county Red Cross Nurse. This course will be offered again next year. It is our aim to select subject matter in all of thse related courses, based on the particular interests of girls of this age and centered around their individual home activities. For this reason, in the work, which deal with the house, the girls own room, its care and arrangement and furnishing, have been chosen as suitable units of work. Likewise the work in clothing and foods deal with problems closely rlated to the girls special interests and abilities.

In the fall of 1927-28 the Theta Epsilon Club reorganized and since then has met every two weeks. The object of this organization is to form a connecting link between the home and the school; to train young women to active and efficient leaders in home and community life; to furnish an opportunity through organization for social life, such as programs, social gatherings, etc. The club plastered the sewing room, has bought many fine books, and added much equipment to the kitchen. During the school year the club plans and serves several banquets and luncheons, which gives the girls splendid experience in preparing food for large numbers.

SMITH-HUGHES WORK

Federal law passed in 1917 which promoted vocational education in agriculture, home economics trades and industries.

The agriculture education is divided into three groups (1) all day students; (2) part time students; (3) adult students. Enrollment in Montpelier's Department year of 1928-29: All Day Students 25. Part time Students, 23.

WORK OF VOCATIONAL AGRICULTURE TEACHER

1. Regular Class Room Work: Farm Crops; Shop; Animal Husbandry; Farm Management and Soils; Engineering.
2. .Supervision of projects of Students in both all day class and part time.
3. Short Course Work: Part time Students; Adult Students.
4. Community Work: Cooperation with extension device; Cooperation with granges and all farm organizations; Testing of milk samples; Testing of seeds for germination; Testing of soil samples for fertility; Pruning demonstrations of fruit trees; Culling of poultry; Controlling of diseases and pests of plants; Controlling of diseases and pests of animals; Seed Treatment demonstrations; Variety tests of various crops.

ACTIVITIES OF THE DEPARTMENT DURING YEAR

1. Parent and Son Banquet—Dec. 17, 1928.
2. Swine Survey in Community—(1st in the State to be carried out).
3. Community Institute.
4. Attended Farmers Week at Columbus—Feb., 1929.
5. Won first at County Livestock Judging Contest for Vocational Agriculture Students held during County Fair Week.
6. Part time evening groups of young farmers organized and meet for 10 regular instruction and educational meetings.
7. Tested 3000 ears of seed corn for germination for farmers in community.
8. Tested 100 samples of soil for fertility and acidity.
9. Gave 12 demonstrations on pruning.
10. Apple judging team won 7th place in State Contest for Vocational Students.
11. Built 2 trailers and 1 wagon in shop.
12. Held grain show in connection with Institute.
13. Four of projects in the department.

Every boy taking an agriculture course must carry a project each year along the subject that he studies in the class room. This project is supervised throughout the year by the instructor. One credit and a half is allowed each year for satisfactory completion of the class room work and project. A boy during a four year course receives instruction along the following phases of agriculture: (1) Farm shop; (2) Animal Husbandry; (3) Farm Crops; (4) Engineering; (5) Farm Management and Soils.

MANUAL TRAINING

Manual Training is that division of instruction which provides an avenue of expression through the use of the hands.

The student is taught the care of tools and how to keep them sharp; the different kinds of lumber and uses.

This requires a considerable amount of time after which we take up the more practical features of this subject, "How to read Plans," "Squaring of Lumber," "How to Saw Boards Straight."

Seventh Grade—Projects were necktie racks and bird houses.

Eighth Grade—Projects: Magazine racks, plant pedestals, foot stools, broom holders and several small articles.

LIBRARY BOARD

Mrs. Bible—President
Mrs. Boone—Vice President
Mrs. Houser
Mr. Sheaffer—Sec. and Treas.
Mr. E. Hall
Mrs. Dwyer

The Library Board is composed of seven members serving seven year terms, one member retiring yearly.

Montpelier is very fortunate to have secured a Public Library system. This, at the present time is in the same room with the H. S. library. The H. S. library is composed of 1811 books, including fiction, non-fiction, and reference books.

The Public Library which began functioning in September, 1928, has 624 volumes of the new, up-to-date books, besides those of the High School library. Any resident of Montpelier is privileged to use these books.

To secure a book the person receives from Librarian an application card which is to be signed by the individual, and with the signature of some reliable person as a reference. The card is returned and a yellow card is given which serves as a permanent card. There is no fee connected with this.

A book may be kept out two weeks unless stated otherwise, and may be renewed once. For each day overdue, a nominal sum of two cents per day is charged.

The work is done by the Librarian and six assistants. Miss DeKay, teacher of History is in charge. Each of the following assistants has charge of the Library, for one period during the day: Wavel Bechtol, Blanche Stahl, Eleanor Briner, Irma Kumnick, Leonis Nelson, Janet Boone, and part time assistants are, Willene Brigle, Howard Shamberger, Margaret Bechtol, Laura Riggard.

Since the beginning in September, 300 people have availed themselves of the opportunity to have regular library cards.

The funds that maintain this Library are secured from the County budget, which was authorized by the state, 6 or 7 years ago, which many range from 1/10 to one mill.

From the successful way in which it has been handled by the board of seven, approved by the Board of Education, it has made a library which is, and will be a credit to Montpelier.

By his record we know he has knowledge
And he tells us he's going to college
So that little man with a will and heart
Into a business soon will start.

Class 1-2-3-4; Latin League 1-2; Hi-Y 3-4; Athletic Association 1-2-3-4.

DOROTHY CHAMPION

A modest maiden with a little doll face
Would make an artistic model in any place.
She would like to be a governess and
Children like her as we can guess.

HERBERT CURRY

Herbert a powerful man is he,
With a pile driver thrust in a football sea.
We all like him, 'tis well to do
And he's quite a picture artist too.

Class 1-2-3-4; Football 4; Track 3-4; Base Ball 1-2; Athletic Association 1-2-3-4.

LUCILE CUSTER

Willing to work and pretty to look upon,
We shall all miss her when she is gone.
She has been a commercial student,
Accurate, able, gentle and prudent.

Class 1-2-3-4; Girl Reserve 3-4; Athletic Association 4; Typist on Annual Staff.

BEE DRAKE

An earnest debater and shrewd beyond doubt,
She is clever, pretty and an all around scout.
Where ere she's placed, we know she'll make good
For she is that type of maidenhood.

Class 1-2-3-4; Girl Reserves 2-3-4; Vice President G.R. 4; Athetic Association 1-2-3-4; Debating Team 3-4; Two letters, Literary Contest; Assistant Pictorial Editor.

LAURICE DRAKE

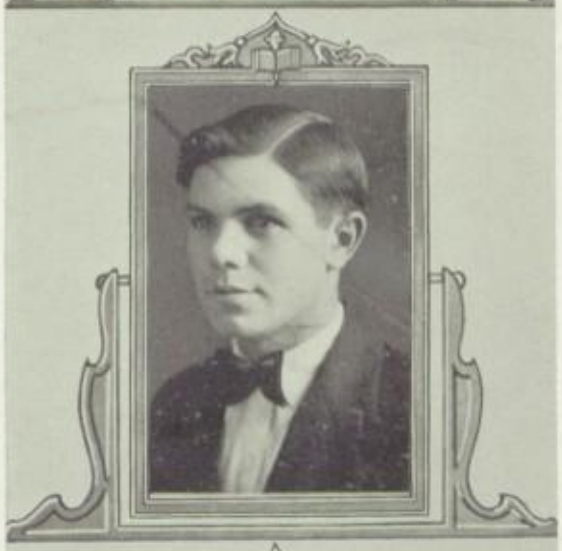
A cut little figure and pretty face
Is the kind of a lady we like in our race,
An air of mischief surrounds this heir
Of our comradeship all unaware.

Class 1-2-3-4; Orchestra 1-2-3-4; Glee Club 1-2; Girl Reserves 1-2-3-4; Latin League 1-2-3-4; Athletic Association 1-2-3-4; Music Editor of Annual.

BLAIR MAXWELL DRAKE

A smile for everyone
Be it daughter or son
But he has a heart so big and sound
And it's men like him makes the world go 'round.

Class 1-2-3-4; Secretary Class 2; President Class 3; Hi-Y 2-3-4; President Hi-Y 3; Literary Society 2; Athletic Association 1-2-3-4; Smith-Hughes 1-2-3-4; Smith-Hughes judging 2-3-4; Interclass B.B. 1-2-3; Varsity B.B. 4; Track 4; Football 4; M.H.S. Letters.



RUTH LUELLA FIFER

With quiet dignity and gentle ways
She adds brightness to all our days;
A very neat writer and she gives you a clue
To what four years in M.H.S. will do.

Class 1-2-3-4; Athletic Association 4; Typist on Annual Staff.

GLADYS FLICKINGER

An excellent penman is this fair lass
And we're proud to have her in our class;
Some days she shall in the heavens speed
At the controls of a winged steed.

Class 1-2-3-4; Latin League 1-2-3-4; Girl Reserve 3-4; Orchestra 2-3; Interclass B.B. 1-2-3; Publicity Committee—Annual Board.

MAXINE GEE

When taste is needed and beauty calls
For decorations in rooms or halls,
Maxine is asked, and her word goes
Because she is capable and she knows.

Class 1-2-3-4; Literary Society 2-3-4; Interclass B.B. 1-2-3-4; Athletic Associations 1-2-3-4; Girls Reserves 3-4; Track 2-3; Basket Ball 1-2-3-4; Assistant Literary Editor of Annual.

DEXTER GRUNDISH

Humor, seriousness and wit combined
Is the type of person you seldom find
In football and basketball his skill was shown
And he'll not span this life alone.

Class 1-2-3-4; Football 3-4; Athletic Association 4; Foreign Advertising Manager.

CLARENCE LEE HAINES

He's quiet; but still waters run deep
And into his heart we've just had a peep,
He's on the job and never shirks
And believe us Clarence, that's the ruse that works.

1-2-3-4; Hi-Y 3-4; Boys Glee Club 4; Track 3-4; Smith-Hughes 1-2-3-4; Agriculture B. B. 3; Postal Editor of Annual 4; Basket Ball 4.

KRIS JOHANSON

The picture artist of our heart
We liked him from the very start
He knows the mountains, the south and north
And into life's sea with our best wishes goes forth.

Class 1-2 Florida; M.H.S. 3-4; Hi-Y 3-4; Pres. 4; Latin League 3-4; Art Editor Annual.

DOYLE KINTIGH

There is a boy so full of wit
Who can go to school and calmly sit
And make up jokes from morn till night,
He might be called a joking sprite.

Class 1-2-3-4; Latin League 1-2-3; Athletic Association 1-2-3-4; Hi-Y 2-3-4; Boys Glee Club 4.

LUCILE KRILL

Give me a low light, a cozy nook
And leave me alone engrossed in a book;
"For a volume of knowledge," said Abraham Lincoln,
"Is a very good policy," and he did some thinkin'.

Class 1-2-3-4; Latin League 1-2-3-4; Athletic Association 4; Assistant Society Editor.

LESTER LOUGHEED

A jolly lad, really don't you see
He appeals to all, even to me.
But if he is sad and out of a song
You know right away something is wrong.

Class 1-2-3-4; Hi-Y 2-3-4; Glee Club 4; Latin Club 1-2; Athletic Association 1-2-3-4; Literary Society 2-3; Chairman of Publicity Committee of Mirror.

MARGARET LUCILLE MOWER

Lucille Mower is our class flower,
Always cheerful in our sunlit bower.
She is diligent, capable, and musically inclined,
And a better saxophone player you seldom find.

Class 1-2-3-4; Girl's B. B. 1-2-3; Track 3-4; Theta Epsilon 1-2-3-4; Orchestra 1-2-3-4; Athletic Association 1-2-3-4; Athletic Editor of Annual.

HELEN JEANETTE McFANN

Pretty, coquetish, bright and gay
She makes school sunny all the day
Perhaps in an office she will go
But more likely in a beauty show.

Class 1-2-3-4; Girl Reserves 1-2-3; Dramatic Club 1-2; Theta Epsilon 1-2-3.

DONNA NEIL

Friends, it is from just such a girl
As Donna that artists of song unfurl
And so dependable a nature is rarely found,
Even though you hunt the world around.

Class 1-2-3-4; Treasurer 3; Girl Reserves 2-3-4; Program Chairman G. R. 4; Theta Epsilon 1-2-3; Athletic Association 1-2-3-4; Glee Club 1; Calendar Editor of Annual.

VICTOR NYE

A four year football man is he
With a physique of iron as one can see;
To talk with him is a pure joy
But to hear his English themes, Oh! Boy.

Class 1-2-3-4; Secretary 1; President Class 2; Football 1-2-3-4; Hi-Y 2-3-4; Treasurer Hi-Y 3; Assistant Business Editor.

MARY E. PARKER

Her first and last year at M.H.S.
With a literary style as one might guess
With eyes of blue and aim set high
We like you more as the close draws nigh.

Class 4; Athletic Association 4; Publicity Committee of Annual.

RALPH PURDY

I've know him long and known him well
And he's been a real boy so I'm here to tell
And though right now he's not so spry,
You wouldn't be either or would I.

Class 1-2-3-4; Football 1-2-3; B. B. 1-2; Track 2; Athletic Association 1-2-3-4; President 3-4; Letters, Foot-ball 4, Track 1, B. B. 1; Athletic Editor of Annual.

LouCile H. READER

Brilliance? My! Ability? Oh!
Our Literary Editor is all aglow
And with malice toward none her kindness lies
Hidden beneath a shy disguise.

Class 1-2-3-4; Vice President 3; Treasurer 4; Girl Reserves 1-2-3-4, Secretary 3; Latin League 1-2-3-4, Secretary and Treasurer 2, Secretary 3; Theta Epsilon 2-3; Debate 3; Orchestra 1; Athletic Association 1-2-3-4; Costume Manager 4; Letters, 1 Debate; Class Prophet 4; Literary Editor of Annual.

LEAR RICKETTS

A future Lindbergh is Lear,
Why he's made for that career
And he has an eye for business as people say,
And we're going to hear from him some day.

Class 2-3-4; Vice President 4; Athletic Association 3-4; Latin League 2-3; Hi-Y 3-4; Inter-class B. B. 3-4; Student Manager 4; Letters 6; Athletic Editor of Annual.

LAURA A. RIGGARD

Studious, helpful, always kind, that's Laura
Modest, pretty, a brilliant mind, that's Laura
Play a piano, sings too, that's Laura
Personality plus and sincerity for you, that's Laura.

Class 1-2-3-4; Class President 1; Secretary 3-4; Girl Reserves 2-3-4; Service Chairman 4; Theta Epsilon 1-2-3-4; Vice President 4; Glee Club 1-4; Pianist 4; Varsity B. HOWARD SHAMBARGER

Yes all the knowledge with which he is filled
Would kill me sure if it on me were spilled;
With heart of gold and a body so powered,
Go into the world, and good luck to you Howard.

Class 1-2-3-4; Hi-Y 1-2-3-4; Literary Society 2; Literary Contest 2-4; Athletic Association 3-4; Smith Hughes 1-2-3-4; Sec. of Agriculture Class 3-4; Agriculture Baseball 1; Track 2; Smith-Hughes Judging Team 1-2-3-4; Business Manager of Annual.

MABEL SMITH

In Vergil her efforts are well repaid
And a future school teacher will be this maid;
So solemn, so studious, yet so dear
And her presence has been felt in this school year.

Class 1-2-3-4; Latin League 1; Athletic Association 4; Filing Editor of Annual.

MAXINE A. SNYDER

The very type of lady, we'll say
To be a proprietress soon some day,
With an alluring personality and neat little grace
She will be patronized when she takes her place.

Class 1-2-3-4; Theta Epsilon 1; Girl Reserves 2-3-4; Athletic Association 4; Track 1; Stenographer of Annual 4.

PAUL SNYDER

Not looking for money, honor or fame,
But shooting square and playing the game
And in aviation we well can see
That an honored pilot he soon shall be.

Class 2-3-4; Orchestra 2; Glee Club 2-4; Latin League 4; Athletic Association 4; Foot Ball 4; Hi-Y 4.

ESTELL STAHL

He is besieged by work for he's bright and clever
And his ability is before us ever.
He's the business manager of the Senior Class
And among the leaders of the world shall pass.

Class 1-2-3-4; Latin League 1-2-3-4; Athletic Association 2-3-4; Hi-Y 3-4; Treasurer Hi-Y 4; Debate Team 3; Stage Manager 3-4; Cheer Leader 4; Assistant Business Annual Board.

KENNETH STAHL

This man of men with a mighty form
That could not be stopped in a football storm.
He likes everyone and likes to roam
As you can tell by his Senior Poem.

Class 1-2-3-4; Hi-Y 2-3-4; Orchestra 3; Foot Ball 3-4; Basketball 2; Athletic Association 3-4; Glee Club 4; Literary Contest 4; Pictorial Editor of Mirror.

DOROTHY STOVER

Who is that girl with the trim little form
With fingers so nimble and heart so warm,
Who is cute, Oh yes, and has ability;
Don't you know her? That's Dorothy.

Class 1-2-3-4; Glee Club 1; Theta Epsilon 1; Athletic Association 4; Interclass B. B. Tournament 3; Treasurer Annual Board 4.

BEATRICE TEDHAMS

Our first violin in every play
And one of the best who has come our way,
But we know where most of her powers lie
And shall look for her up in the sky.

Class 1-2-3-4; Athletic Association 1-2-3-4; Orchestra 1-2-3-4; League 1-2-3-4; Girl Reserves 1-2; Interclass B. B. 3-4; Member of Publicity Committee for Annual.

GERALD WATERSTONE

He likes music from a Uke to a song
And spreads happiness as he goes along.
We think he's fine and so does She
And we wonder how long he single will be.

Class 1-2-3-4; Latin League 1-2; Literary Society 1-2-3; Hi-Y 3-4; Attended Hi-Y Conference 4; Glee Club 4; Orchestra 2-3-4; Athletic Association 3-4; Debate Team 4; Assistant Music Editor Annual.

KATHRINE WINGARD

A beautiful maiden, yes beauty divine
And then there is times when we all pine
To hear her sing like the happy thrush,
Which causes every heart to almost hush.

DALE WISMAN

The impersonation of the Prince of Wales,
He is quietly happy and never fails;
To respond to duty, distasteful or good
And is an ideal type for a real manhood.

Class 1-2-3-4; Athletic Association 1-2-3-4; Hi-Y 2-3-4; Literary Society 2; Glee Club 4; Track 3; Circulation Manager of Annual.

SENIOR CLASS HISTORY

Today we find that forty-seven of our group have safely landed at the destination of our journey down the great river of knowledge having always had uppermost in our minds the central and paramount theme of being physically, mentally, and morally fit. It is now a part of our past, but an occasional brief review makes us recall many almost extinct memories. It was with eageness mixed with a little fear that in September, 1926, seventy-five secured reservations in our canoe called the Freshman in which we were to glide down the M. H. S. River. Here the stream was narrow and the green of the trees and grass about reflected upon us and made us look green to those in the Sophomore, Junior and Senior canoes which were much farther down the river.

There was considerable confusion in embarking because some just couldn't seem to find their places and as they wandered about locating their right sections it rocked the canoe a little but we were soon going smoothly and happily for we had chosen Miss Benson to be the chief instructor and Laura Riggard was placed at the head of the canoe to keep it in the desired course. There were always three canoes in sight ahead of us and try as we might, it was a year before we could overtake the first one.

On our second year's voyage we found the stream growing wider and the currents becoming strong and swift which compelled us to work harder and take a broad look upon surroundings. The canoe we used was called the Sophomore and those who were instrumental in planning and managing the cruise were Mr. Daniels, the advisor, and Grant Brown, president. Several times we went on shore and had very pleasant parties after which we returned to our canoes and paddled with doubled zeal. Occasionally in these two years sorrow came upon us because some of our passengers were called to travel on streams other than the M. H. S., so the rest had to work harder to make up for the lost one.

Eventually we arrived at the landing which was a symbol that our journey was half completed and here we excitedly jumped into the Junior canoe and applied ourselves with full force. You see we had not gained until there was but one canoe ahead of us and the waters continued to become dangerous and it became difficult to paddle but we would not give up without reaching our goal. In our new canoe it was again deemed necessary for us to select new leaders. This time the Advisor was Miss DeKay; President, Max Drake; Vice President, LouCile Reader; Secretary, Laura Riggard; and Treasurer, Donna Neil.

One night when both the Seniors and we Juniors were on shore they challenged us to the annual Junior-Senior Hunt and our group being one with ever-ready pep, accepted it at once. After about forty-five minutes

of searching we found them and they showed their good sportsmanship by entertaining us with a very nice party.

Our expenses were becoming so great that it was necessary for us to stop and give a play, "His Best Investment," which provided us with money to bid the Seniors farewell in the form of the Junior-Senior Banquet, which closed our third year.

Our fourth and final expedition which took us out of the M. H. S. River into the Sea of Life was one of pleasure and work combined. This year we used the canoe "Seniors" and found it to be a very strong and sturdy vessel. There was much work to be accomplished so we chose as Advisor, Miss Burns; President, Fay Amsbaugh; Vice President, Lear Ricketts; Secretary, Laura Riggard; and Treasurer, LouCile Reader. This year we, as is the custom, challenged the Juniors to a hunt and our committee was able to hide us so well that when the two hours time was up it found the Juniors still seeking us, so great cheers from our crowd filled the air to let them know that their efforts had failed and all returned to the building and enjoyed refreshments. Later they invited us to a very clever party to remind us of their good fellowship. Another night the passengers of the four canoes joined in a mixer and everyone became acquainted with the others. Again our founds became low so we gave a play, "Aunt Billy from Texas" and "The Camouflage of Shirley," both being successful.

This volume of the "Mirror" of which we are very proud, is the result of the hard work and thought of our efficient Annual-Board.

The Juniors knowing that we were soon to leave, bid us farewell with a very delightful Banquet. The Senior Class play, commencement, and Alumni-Banquet then closed our voyage on the M. H. S. River.

At last we have achieved our goal of physical, mental and moral strength, having always had as our motto "Character is the only True Diploma," and are now read to embark on the Sea of Life but we do not fear because our four year sojourn has well prepared us for it.

CLASS PROPHECY

This is LouCile Reader announcing from station C H A R A C T E R, broadcasting the daily national news bulletin, June 2, 1945, from the 52nd story of the Central High School Building, Montpelier, Ohio.

A world-wide celebration is being held today in honor of Navigator, Donna H. Burns, and Pilot H. S. Moffitt, who have just returned from their non-stop flight around the world in the dirigible, "The Spirit of M. H. S."

Today the president of the United States, Fay Amsbaugh, appointed Max Drake as Secretary of Agriculture, in his cabinet.

Lear Ricketts will deliver, June 6, an oration which he believes will prove to the world that Daniel Wabster can be surpassed.

Wavel Bechtol and Lucile Krill, missionaries to the Eskimos, in Greenland, tele-

phoned the capitol today, requesting that a carload of electric fans, be sent to them immediately.

Kris Johansen, America's renowned artist, is painting before the King of England, with Laurice Drake as his model.

Gladys Flickinger has perfected her dare-devil feat of landing on church steeples in her plane designed by Paul Snyder.

The salary of Willene Brigle and Doyle Kintigh, famous comedians, in Hollywood Talkies, has been raised from $14,999.99 to $15,000.00.

A little bit of nothing has been stirred up in a New York City office where the co-journalists Mary Parker and Kenneth Stahl, have employed the noted typists, Luella Fifer, and Dorothy Champion.

Wilbur Clapp, star athlete, of Harvard University, is being coached by Ralph Purdy, college authority on sports, for the 1955 Olympics, to be held at the Bill Shinn Stadium in this city.

Dexter Grundish has been called to the professorship of Greek, at Stanford University, California.

Word has reached here that Helen McFann and Lucile Mower, distinguished congresswomen, have initiated a law to prohibit dogs from sheltering fleas.

Howard Shambarger, eminent scientist, has just returned from his trip to Mars, and is now recording his adventures in a book called "Gooble Feathers;" to be published by the Clarence Haines Publishing Company.

Lester Lougheed has left his summer home at Long Island, to live in seclusion attempting to solve the question, "Why do chickens cross the road in front of my new Marmon eight?"

I will now turn the microphone over to Laura Riggard who will broadcast the local news.

A fine program is being presented at the White Lily Roof Gardens this week by Donna Neil, famous prima donna of the Metropolitan Opera Company, accompanied by Kathrine Wingard. Bob Augustine's Merry-Makers are also giving a novelty number.

Maxine Snyder and Maxine Gee, proprietresses of the celebrated Maxine Tea Room in Paris, are visiting friends in this city.

George Clemmer, a competent contractor, is building a hundred story department store which will be operated by Wisman and Nye.

The Management of the Montpelier Chicken Hatchery has been purchased by Mable Smith and Herbert Curry. They will take possession immediately.

An auction which attracted over 30,000 people to the city of West Jefferson, was efficiently conducted by Bee Drake, as auctioneer, and Hal Ansley, as clerk.

Bee Tedhams in her reliable car "Shakespeare," has just entered the Marathon Auto Race. She will drive around the city race track until she becomes so dizzy that she is forced to stop.

Estell Stahl, manager of the Bridgewater's most popular opera house, is featuring this week, Dorothy Stover in her latest hit.

Lucile Custer and Ruby Allman, popular commercial teachers at Tri-State College, Toledo, have devised a new way by which their students may easily type 200 words per minute.

Voneda Bauer, an accomplished reader, and Gerald Waterston, a fine violinist, have outstanding acts in the Chautauqua Company now in this city.

Betty Best, a resident for 15 years in the Old Maids Home of this city, has just announced to the astonished public that she will be a June bride if the groom does not fail to appear.

This concludes the broadcasting from station C-H-A-R-A-C-T-E-R.

ANNUAL BOARD PLAY
April 19, 1929
"THE CAMOUFLAGE OF SHIRLEY"
Comedy—Drama

One of the best demonstrations of dramatic art ever given at M. H. S. was enjoyed in the play given by the Senior Annual Board.

Every character was particularly well-selected to fill his place, and the audience was thrilled with the war-time situations and the final capture of the German spy.

"AUNT BILLY FROM TEXAS"
A Comedy

Another interesting playlet given by the Seniors, was well received, with Aunt Billy being no other than Robert Augustine in disguise.

Those taking part were—Robert Augustine, Bee Drake, Howard Shambarger, Willene Brigle, Elizabeth Best, Gerald Watrston, Donna Neil, Kathrine Wingard, LouCile Reader, Mary Parker, Dorothy Champion, Kris Johansen, George Clemmer, Dale Wisman, Lear Ricketts, Kenneth Stahl and Fay Amspaugh.

TO THE SENIOR CLASS

Cheer up dear hearts our life's not over,
Not like the fall to the dying clover
But many long years have we yet to live,
And to the world ourselves to give.
After leaving—M. H. S.

These last few years of dreaming days
Have shown us the way our pathway lays,
We've been led these years by many friends,
Now alone we must travel till this life ends,
After leaving—M. H. S.

Many triumphs of youth our lives have won,
These minor victories we call but fun
To the problems of our future we look today,
We live to solve them, our life must pay.
After leaving—M. H. S.

Soothing and urging are the thoughts of the past,
So never from the memory should these be cast;
But if failure in life we look upon
Never will we reach that goal beyond.
After leaving—M. H. S.

A backward glance at our dear old high
Then a glance at our goal so high in the sky;
A willing heart and a resolute will,
Shall find us in glory at the top of the hill.
After leaving—M. H. S.

A step toward progress with willful cheers
Always looking ahead to future years,
For the door of success we all have a key
If, service with a smile, our motto be.
After leaving—M. H. S.

God wills a way if all will try
To reach that standard in the sky;
But without His help our time is lost
And into the chaos our efforts tossed
After leaving—M. H. S.

May a name for this class be left by all,
Not only as a picture upon the wall
But work of love, honor and fame
So we can show how we played the game
After leaving—M. H. S.

There's music in the air at the spring of the year
A song that we Seniors are dreading to hear,
To part from our friends and our second home
Turned out to the world and left to roam,
Were leaving—M. H. S.

JUNIOR CLASS HISTORY

Now that we have become Juniors we feel that half our high school life is over. The past two years we have earnestly supported the projects of the school by entering into its activities and striving to raise the moral standards. We hope that because of this we may be considered a vital part of the school.

Last fall the Seniors issued the challenge for the annual Junior-Senior hunt. We accepted and after searching for two hours returned, tired and dejected, to the schoolhouse. We arranged for a party in their honor, which proved successful.

Our class has contributed many athletes and much talent to the sport and literary achievements of the school. Ten letters were given for football and basketball and four to literary contestants.

We presented the annual Junior class play and it was received well.

Near the close of the year we bid the departing Seniors farewell with the Junior-Senior Banquet held in the Gym with many elaborate preparations. We were favored by speeches and music during the banquet and then we spent an enjoyable hour in dancing. This takes its place in our castle of memories as a delightful evening yet sorrowful because it meant adieu.

Thus is the close of an eventful school year during which our foremost aim has been to reach the soaring ideals of our class and school.

TO THE JUNIORS

According to tradition,
A hunt is held each year;
The Juniors hunt the Seniors
Who've hidden out somewhere.

The night was dark 'en dreary,
The moon was out o' sight.
The Juniors tired 'en weary
Gave up the hunt that night.

We got back in the shader's
Th' bushes hid us quite,
You didn't need no ladders
To find us there that night.

We heard 'em in the gloamin'
Their halloos loud and long,
We bet they were a'goranin'
Because they had us wrong.

We sat through evenin' vesper;
'Till our limbs began to cramp—
(We weren't 'sposed t' whisper)
An' gee! The ground was damp!

We heard 'em drawin' nearer
They came within a step,
The lights a'flashin' over,
We wouldn't give up yet.

They finally left us quakin'
Upon the ground that night,
We really were a'shakin'
Boy! We had a fright.

The hour hand showed eleven
We knew the hunt was done;
We thanked our stars in heaven
Whoopee! We have won!

Straightway we left the bushes
And found a circle near—
Our echoes shook the neighborhood
The Juniors got a cheer.

We trooped back to Alma Mater
With shouts of victory,
And felt that we were greater
Than either Grant or Lee.

All gathered in the basement
The Juniors did look beat;
We ate up our refreshments,
It was a grand defeat.

We compliment you Juniors
(Although I am quite blunt)
And hope when you are Seniors
That you will win the hunt.

Sophomore

The strangeness has worn off. Our first lap is finished. But larger obstacles are yet to be overcome. Though with the helping hand of our leaders, we are instilled with a conscientiousness of hope and encouragement.

SOPHOMORE CLASS HISTORY

As we assumed our duties as Sophomores we were determined to raise the moral standards of our class and of the entire school. We have worked toward that goal during this year and intend to continue to do so in the next two years. We truly hope that we will be asked to do our share in supporting the high character ideals of our school, and in return we promise you that we will do so to the best of our ability, for it is by so doing that we become an essential cog in the intricate mechanism of high school life.

Many of our class took part in activities as this makes the school year more enjoyable. Several of the Sophomores had leading parts in the Operetta and three made the Varsity football and basketball teams.

We feel proud of the standards we have raised this year and sincerely hope and promise that in the future we can make a better M. H. S.

FRESHMAN CLASS HISTORY

When we entered the portals of M. H. S. we felt a certain responsibility stealing upon us that we will carry with us during our four years here. We sincerely intend to boost the projects which are undertaken by the upper classmen.

It is very doubtful if the visions and thoughts that we had on that first morning will ever leave us. It will be just as well if they do not because that is the time that we resolved to do our best in an endeavor toward developing higher character.

In working towards our goal, we thought it best if we used our talents to benefit others and because of this we entered into various activities, especially athletics, three receiving letters.

We desire to win through establishing a higher goal to good character.

M. H. S. ORCHESTRA

Music is priceless, beyond value, but still it has its place in all institutions. Music is words expressed in tone, and the Orchestra has told us many stories. Yes stories of life. The marches give us that peppy feeling, the overtures bring us days of spring or the cold winter days, all of which is told within the true harmony of instruments.

It has the power to sadden or gladden, according to the mood, and it brings happiness to those who are appreciative of music. There is a hidden incentive of an inspiration which expresses itself in success if sought. We are seeking this invisible element, and we hope that before we leave M.H.S. we will have found that inspiring liquid which has been hidden in the previous years.

We have discovered that music has a soul, and is as human as ourselves, for those who can peer deeper than the ordinary eye.

It takes more than a general understanding of music to obtain its true value, and this is where the lack of appreciation for music appears.

A more happy and successful life can be spent with music intermingled. This is the reason we have chosen to be members of this organization, and we hope to profit in the future along this line, as we have in our high school days.

GIRLS' GLEE CLUB

The blending of voices is the blending of hearts. The real truth of vocal abilities are brought out in a Glee Club. What is better than to hear the expression of words interwoven with music. There is nothing better. Morality, truth and feeling are the supreme blessings of vocal consolidation.

THE CAPTAIN OF PLYMOUTH

Each year the High School's Glee Clubs stage an operetta. The one presented this year was historical as it pictured life in the colonial days. The theme was The Captain of Plymouth, a tale relating to the Courtship of Miles Standish, the Captain of Plymouth. Miles, a great hero in war, was afraid of Priscilla, so he had John Alden go to her with an offer of marriage. John also loved Priscilla and after telling her of Miles offer confessed his love. Miles went to war with the Indians and was reported killed. John and Priscilla were being wed when Miles returned, too late to regain Priscilla.

Second row—Gerald Waterston, Cedric Montgomery, Dale Wisman, Robert Lett, Miss Cameron, Welton Roberts, Eugene Thompson, Carl Deadman, Michael Ringenberg, Lyle Beek.

BOYS' GLEE CLUB

The Boys' Glee Club was organized for the first time this year under the capable leadership of Mrs. Hosler who was substituting for Miss Cameron during her illness. Nineteen members joined the club and although we could not sing when we began we soon mastered the art which was demonstrated by our appearance in chapel. Besides improving the tone of our voices, singing also developed us morally and all in all we have been quite successful this year.

M. H. S. LITERARY SOCIETY

This year we have been trying faithfully to live up to our name, which means, "Learn to Love." We have our Society meetings every two weeks, at which time we carry out in our business meetings, every detail of the Constitution of the Club, besides a good program consisting of plays, readings, speeches, jokes and music. Each member of the club is requested to take part several times during the year. We put on a Chapel Program which was enjoyed by all members of the High School. Various entertainments have been enjoyed by many.

The object of this club is to train the pupils to make public appearances, which will help them in future life. We feel that this training will enable us to promote the growth of the moral side of life as well as the physical and mental.

LITERARY CONTEST

An activity that is becoming more popular each year is the Triangular Literary Contest made up of three schools, Montpelier, Hicksville and Stryker, which is an avenue of expression for eighteen of our students.

From this there is derived a three-fold value, that received by the contestant, the audience and the school. We are slow to realize how important such activities are, especially in a community where athletics has such prominence, but we find that this too gives much opportunity for developing physical and mental power to win a perfect score and feel that every contestant has derived untold worth from participation in this event.

Friday evening, March 22nd, 1929, the following program was rendered:

Piano Solo—Liebistraum, *Liszt* ..... Laura Riggard
Minuet in G, *Paderewski* ..... Lois Weber

THE LATIN LEAGUE

The Latin League, which meets the first Wednesday of every month, is composed of those students who are interested in delving further into the events of classical times. Much of the success of this club is due to the unselfish efforts of our very efficient instructor, Mr. Daniel.

Our programs consist of the study of the lives of Caesar, Cicero, and Virgil. We also have motion pictures concerning scenes in Italy as they were in ancient times.

In opening the meetings Latin songs are sung. At times we have Latin vocabulary contests when the memory of the students are put to test.

One of the outstanding events on the club's calendar was the annual banquet. This proved very successful.

Each year the membership grows larger as we truly wish it to as it shows the students desire of further knowledge.

One of the outstanding desires of the club is to raise the morals of its members and at the same time to develop the mental faculties.

THETA EPSILON

The Theta Epsilon Club is the social division of the Home Economics Classes with Miss Cox acting as advisor. The meetings are held every two weeks on Wednesday at 10:30 a. m.

Our endeavor is to provide entertainment, educational as well as social, for the members and to give something that will help every class.

More educational work has been done this year than before. Speakers are secured to talk to the members about health and various other interesting subjects.

We have supplied the kitchen with many utensils that were very badly needed.

To show that our time has been well spent we prepared and served a banquet for the Agriculture Class.

The Freshmen were initiated by a "kitchen party." This proved very successful and made us feel thoroughly acquainted with them.

Much interest was created this year by the election of a cheer leader, song leader and a pianist. We have our yells and songs that increase our "pep" and our ability to enjoy ourselves.

HI-Y CLUB

This country is calling for real young men, those who are trained mentally, morally, and physically. The Hi-Y was organized so that the boys of the school might devote an hour each week to moral training. An organization of this kind promotes that caliber of men who make fine, upstanding, American citizens and able leaders among the masses of people.

The activities of this club during the past year have been numerous and intensely interesting as well as beneficial. Mr. Moffitt, our capable and sincere advisor, has secured as speakers for our club, Mr. Bruner, Mr. Daniel, Mr. Faben, Dr. Castle, Rev. Hollar, and Rev. Higbie who have each left a message of great value and interest.

The Hi-Y promoted the Mixer and cooperated with the Girl Reserves in entertaining the former members of these two clubs at the annual reunion.

Those who attended Hi-Y training camp last summer were Kris Johansen, Lear Ricketts and Clarence Haines. They brought back new and better ideas concerning our club as well as Gerald Waterston, Clarence Haines, Doyle Kintigh, and Lester Lougheed, who attended the conference held at Springfield.

Our club has high moral standards as we feel that the moral of a member is the strength of the club, the moral of the club is the strength of the school, and the moral of the school shows its place.

GIRL RESERVES

Life is like some rich mosaic made up of many beautiful parts. Across this mosaic glows the reflection of friendship, man's gift to man.

There can be no real social happiness without friendship. For friendship is the flowering of the social instinct, the finest and most inspiring product of the social life.

The aim of the Girl Reserves is to create a spirit of friendliness throughout the school and to develop character, such that will radiate from our lives and be a benefit to our community. We consider this essential and also our duty according to the purpose of the club which is, "To find and give the best." We have a code to follow, by which to mold our lives. We feel that we must keep before us the all important and vital subject of character, for we realize that if we fail in this, the best in life has been lost.

Last year the first convention in northwestern Ohio at Wauseon was held which brought all neighboring clubs closer together. By work and cooperation between them, we feel sure the club and its cause will be furthered.

The meetings are held each Tuesday afternoon at two o'clock. The programs consist of songs, devotion, also topics and discussions.

During the year we had two initiation services and with the Hi-Y gave the Christmas program in Chapel. Together we sponsored a Girl Reserves and Hi-Y reunion for all present and former members.

We packed boxes at Christmas time and distributed them among the needy. We are glad to help the school and town in any way we can.

SMITH-HUGHES

The Smith-Hughes organization is one of the most practical and worthwhile organizations of the school as can be shown by the following events:

Activities of the department during the year.

1. Parent and Son Banquet—December 17, 1928.
2. Swine Survey in Community—(First in the state to be carried out).
3. Community Institute.
4. Attended Farmers Week at Columbus—February, 1929.
5. Won first at County Livestock Judging Contest for Vocational Agricultural Students held during County Fair week.
6. Part time evening groups of young farmers organized and meet for ten regular instruction and educational meetings.

Tested 3000 ears of seed corn for germination for farmers in community.

8. Tested 100 samples of soil for fertility and acidity.
9. Gave 12 demonstrations on pruning.
10. Apple judging team won 7th place in State Contest for vocational Students.
11. Built 2 trailers and 1 wagon in shop.
12. Held grain show in connection with Institute.
13. Four of projects in the department.

Every boy taking an agriculture course must carry a project each year along the subject that he studies in the class room. This project is supervised throughout the year by the instructor. One credit and a half is allowed each year for satisfactory completion, of the class room work and project. A boy during a four year course receives instruction along the following phases of agriculture (1) Farm Shop; (2) Animal Husbandry; (3) Farm Crops; (4) Engineering.

HIGH SCHOOL MOTHERS CLUB

As we enter into the fifth year of the High School Mothers Club we find the organization progressing very rapidly. Each year has proven a great success and this year we aim to make our developments stand high among the schools various achievements.

This year our first project was a concession at the Williams County fair, which proved very successful. A dinner was served for the Farm Bureau Members, and it received worth while compliments. Th Mothers Club sponsored the Thanksgiving football game between the Alumni and Varsity teams for the benefit of Ralph Purdy.

One of the high spots of the year was the purchasing of a cycloramic curtain equipped with special lights for the stage in the High School Auditorium. To materialize this plan the Grade School Mothers Club aided us.

Our club is not only a financial success, but the meetings which have goodly attendance, are entertained by the talented pupils of the school and occasional speakers. The social events of the club are many. A Christmas party created a closer feeling between the members of the club and the faculty. A pot luck supper to which the husbands and faculty were invited, falls also under this years program.

The Mothers Club has one great wish to bring about advancement in every possible way so that the future generation will have all the necessary improvements in school and aid them in their work along life's way.

THE YEAR BOOK

A real victory was added to Montpelier's credit when word was received that the 1928 "Mirror" won National recognition in being given First Class rating with honor and excellence.

This contest is conducted yearly by the Department of Journalism of Minnesota University and has as its aim a cultivation of the finer and better things in school publications.

Schools are classified according to their enrollment and awards made by number of points won.

Features of the Annual that are scored:—Theme—Opening and Division Pages—Art and Color work—Administration, Album and Classes—Organizations—Views and Scenes—Photography—Engraving—Make-up and Balance—Editing—Literary Attainments—Selection of Cover and Financial success, this feature being recognized with a bonus.

The 1928 "Mirror" won a total of 901 points out of a possible 1000, All American winning with 923 points, showing that our school may be a subject of envy not only for its athletics but literary attainments as well.

We then answer the question, "Why is an Annual worth while? Why is it the most useful, all around activity?"

1. Because it saves money.
   (a) For it eliminates the factor of having bundles of old photographs and cumbersome memory books.
2. The Annual has real and great sentimental value.
   (a) Try to buy an old Annual from its owner, or fix a price on your own.
3. The Annual affords its every owner real enjoyment.
   (a) Compare it with any other form of pleasure available and find its equal in dollar per hour value.
4. The Annual plays a tremendous and unique part in developing and molding school spirit.
   (a) This is the only means whereby *all* the school, and all its activities are represented together.
5. The Annual is the school guide book.
   (a) It functions as no handbook ever can.
   (b) It is the source of the freshmen's real information about the school as a whole.
   (c) Provides information to parents.
6. The school annual is a powerful influence in molding the character and values of student life.
   (a) It creates an incentive to give the best.
7. It is a powerful influence for promoting better relations with parents and the community.
   (a) Gives evidence of how we serve community.
8. It is one of the most democratic and democratizing forces in the school.
   (a) Every student gets his vote whether in activity or class.
9. The Annual records the history of the school in all its many phases.
   (a) Recognized by all universities and colleges who carefully keep them on file.
10. It gives good training and opportunity for self-expression and creative work.
    (a) It gives cooperative expression.
    (b) It makes and finds leaders.
    (c) It gives each individual a chance to deal with the business world.

We close with the question, Can any School afford to be without a yearbook?

SOCIAL NEWS

By Laura Riggard

The Social activities of M. H. S. embodies within itself an overflowing store of school spirit. All are social leaders, for a school without social functions is like a body without a soul.

Society has its place in the cycle of school life.

A DELIGHTFUL EVENING AT CHANGNONS

One chilly evening late in fall when the trees had given up most of their foliage, we were invited to be at home with the Changnons in camp life.

Not many of the Faculty had ever witnessed the ways and means used by our forefathers and the early methods of fire-lighting were unknown. Gathered in a circle, our host called upon the great spirit Wakonda to bring fire, and in a few minutes after rubbing sticks together the prayer was answered.

Contests and games furnished enjoyment for the evening, and after a delicious repast the guests took leave, realizing that we truly are living in a wonderful age.

THE HODSONS ENTERTAIN

Very early in the school year at the season when ghosts and witches perambulate through the shadows the High School Faculty were invited to spend an evening at the Hodson home.

Upon arrival we found that they had taken up their abode in the wilds and woods of the vicinity.

With tiny flashlights we made our way over the Indian traits of old in vain endeavor to find their wigwam. On every hand blood curdling shrieks and cries were heard as the austere pedagogues made their way through mire, brambles and briers.

At last a light and we found ourselves in a clearing within the radiant glow of a campfire where food, the white man's joy, was to be found in abundance.

After recalling many Indian legends and telling Indian history the party tried again to reach the abode of the white man realizing as never before that direction has no dimensions in the dark shadows of a woodland.

H. S. FACULTY ENTERTAINED BY GRADE TEACHERS

With the first chill days of autumn came an invitation to the H. S. Faculty to be present at a Weiner Roast at the Irving Miller home given by grade teachers. Delighted to lay aside the cares of day and accept hospitality, six by the clock found us gathered about a roaring bonfire doing double duty to a most delicious feast prepared by our co-workers, with pumpkin pie a surprise from Mrs. Miller.

We truly can say that we appreciated the kindness and trust that we may learn to know each member of the grade Faculty better.

THE HIGH SCHOOL MIXER

On the evening of October 30, 1928, the annual Halloween Mixer was held in the high school gymnasium. Faculty and students alike, were compelled to slide down the shoots, pass through the "Lane of Horrors," and then enter the crowd of merry-making figures, some dressed like kings and queens, others like peasants and many other odd costumed creatures.

The most cleverly dressed persons were two of the Freshman guests, Virginia Cook, dressed as a Colonial lass, and Hurcy Purdy, arrayed as a cannibal from the South Seas.

A group of distinguished personages, including the faculty, arriving from the Orient, honored our enthused listeners with their presence and brief talks. As a special initiative feat, the Freshmen entertained the eager guests with readings and music.

At the close of such a pleasing program, refreshments were served by the Girls Reserve and the Hi-Y clubs, who sponsored the entire party.

Much credit can be given to these two clubs who bring about this "getting acquainted" assemblage each year.

THE FOOTBALL BANQUET

There comes a time, at the end of the football season, when instead of looking forward to a hard battle on the field, the squad looks upon the coming banquet given by their mothers, celebrating the many victories that were theirs during the season. Can it be questioned why this dinner causes so much excitement? Previous experiences has proved a delight to all those who have had the honor of being present.

On the evening of December 4, 1928, this annual event took place in the Smith-Hughes Room at the High School. With each year comes a pleasing menu and delightful entertainment, far surpassing that of the previous years, proving that our men on the gridiron deserve the best.

The entire room and tables were beautifully decorated, closely relating to the guest's victorious sport. With the realization of the close of one of the school's favorite sports, came the toasts by the captain, Victor Nye; Coach, Mr. Swanson; Principal, Mr. Shaeffer; and Superintendent, Mr. Moffitt, intermingled with both joy for the victories, and sadness for the departing pleasure of holding high the torch of School Spirit.

The banquet, sponsored by the "mothers," deserved the appreciative comments that were rumored about as the dinner was brought to a close. The walls seemed to quiver, the roof rise, as the yells for "mother" and "school" penetrated deeply into the evening silence, being the final applaud for M. H. S. and those so dear to it.

JUNIOR-SENIOR PARTY

A very unusual event took place in the High School Gymnasium, Wednesday evening, December 12, 1928, when the Juniors, the defeated party of teh annual Junior-Senior Hunt, sponsored a Track Meet for the Senior class. Class mates were requested to garb themselves in sport styles, so as to enable each one to partake in an event. Shot put, the thirty-inch dash, and the hammer throw, appeared to be very popular among the evening's entertainment, along with many more exciting contests.

The Senior Class had enough athletic ability in their class to carry home the beautiful cup (tin) which was presented for the most accurate and swift section.

Delightful refreshments were served at the close of the Senior athletes' victory, and they were unanimous in wishing their Junior friends good luck in next year's hunt.

THE VOCATIONAL PARENT AND SON BANQUET

To reveal to those interested, the ever increasing progress and the numerous bnefits of the Vocational course of the Montpelier High School, a delightful banquet was served on the evening of December 17, 1928, honoring the parents of those sons taking this course of instruction.

Max Drake was the toastmaster of the evening. Under his pleasing program, Mr. L. H. Howell, a prominent farmer from Napoleon, gave a very interesting talk. One of the students, Howard Shambarger, portrayed in picture the specific qualities he gained by taking a Vocational Course. Music wreathed itself about the group in the form of a piano solo by Mrs. Shaeffer, as the completion of another enjoyable evening, to be placed in their memory books.

G. R.—HI-Y REUNION

Fond memories of school days were joyfully recalled to all members of the two clubs as they reunited in their annual Girl Reserve and Hi-Y Reunion, Thursday evening, December 20, 1928, at the High School Gymnasium.

The Gym was attractively decorated in accordance with the Yuletide season, with a brilliantly lighted Christmas tree at one end of the Gym with artistic decorations on all sides.

The program opened with the Welcome—Kathrine Wingard; Response—Raymond Pownell; Address—Mr. Moffitt; Solo Dance—Nannette Sargent; Piano Solo—Florence Bell; Reading—Josephine Gump.

Games and Contests which tested one's mental alertness furnished the pastimes.

Light refreshments held their place on the program as in every successful party.

The guests then said their farewells and parted, looking forward to the annual runion the coming year.

MISS HETH ENTERTAINS AT A ST. PATRICK BRIDGE

An occasion that was most delightful and charming was a St. Patrick Bridge given by Miss Heth, honoring the H. S. Faculty and friends.

For a time we revelled in Irish lore, touring from city to city as it were for each table brought to memory a new center.

And ere our eyes could believe, Father Time was pointing a finger of scorn to the wee figure on the clock.

But how could we depart, for our hostess had placed before us a most delicious and appetizing repast, which was symbolic in every detail of the land of Shamrocks.

We lingered long, for seldom have we the pleasure of such genial hospitality.

CHAPEL

Our school program would not be complete unless some time were given over to the more spiritual things of life; "for a serious hour now and then is very good for the best of men."

One hour each week on Tuesday morning the entire student body assemble in the auditorium to listen to those who have already met with varied experiences in the field of life.

We have been particularly fortunate this year in having so many who were willing to give of their time and energy to this cause.

Then too, we have had many special programs given by the different organizations and classes which were unique and entertaining, interspersed with music and song.

A brief review follows:

ATHLETICS

Sportsmanship! What a world of meaning it has. The honor of the nations and the respect of citizens lie in it. Through the medium of athletics the youth of today are scattering good-will and sportsmanship.

COACH

There is a friend in our midst who is a friend. He has been with us for two years coming from Purdue to put our athletics across as they should be put across. He has enabled us to make man of ourselves where only ungainly boys once stood. He has put on pound after pound of strong healthy flesh to every man under him. His rich experience has helped our students develop teams that were an asset to the school. Everyone who has worked with Coach knows that it has been time well spent and the entire school wants him back next fall. We wish to assure him he will have the class of 29 back of him to the end.

—Robert Augustine

GENERAL HISTORY OF FOOTBALL

The year 1922 saw the opening season of football in the Montpelier High School. This new sport was really taken up by the entire community. Burton Fiser was the mentor to this group of enthusiasts. The following year saw the arrival of "Bill" Howald. His vast knowledge of the fundamentals of the game put us through four years of great success. His teams lost only five games in his last three years. Every student in the school owes a great debt to Coach Howald for his honest endeavor.

Our present Coach, D. V. Swanson came from Purdue in 1927 to fill the great gap left by Howald's departure. With his ceaseless coaching and persistent interest he led us through a season of smashing success. The year following in '28 he led his team to victory over the entire Northwestern Ohio League. During the seven years M. H. S. has scored 920 points against their opponents 398. 140 touchdowns and 78 points after touchdowns.

OUR TEAM

The Varsity football squad is probably the most efficient group of co-workers in the school. They develop this high standard by persistent coaching and training. A football player has to use his head, the day of brawn and weight has passed before us. The modern game consists of hours and hours of hard work to develop the coordination of mind and muscle. The real significance of the responsibility to be born by a player suddenly appears to him in the shape of a strong opposing team. You look into the innermost recesses of your soul where you see a picture of yourself as you really are. If you have cheated by lack of training it not only hurts your school but above all your own body both physically and morally. This is not a loyal school spirit but a mere shadow of a reality. While in another player's shoes you are an altogether different machine in this game of life. You are not afraid to face this world because you have played clean and prepared for the strife that means so much.

—*Robert Augustine*

VICTOR NYE, *Captain*

Vic was one of our most valuable players at guard. He played a clean, consistent game and his encouragement meant much to the team. He has served the varsity well for the past four years and will be gladly missed in '29.

WILBUR CLAPP

Wilbur has developed into one of the best field generals in this part of the state. He was a steady hard driving back and ran well on any field. He was equally good around end or through tackle. It will be hard to fill his place at quarterback.

ROBERT AUGUSTINE

Undetermined of his football ability proved a handicap to Bob in his first year. During this season he has proven himself a fast hard hitting player and much credit is due him. This is his last year with M. H. S.

KENNETH STAHL

One of the best guards in the conference has brought his football career to a close. Though handicapped with injuries during the greater part of the season he played a great game of ball and will be greatly missed next year.

HARVEY SNOW

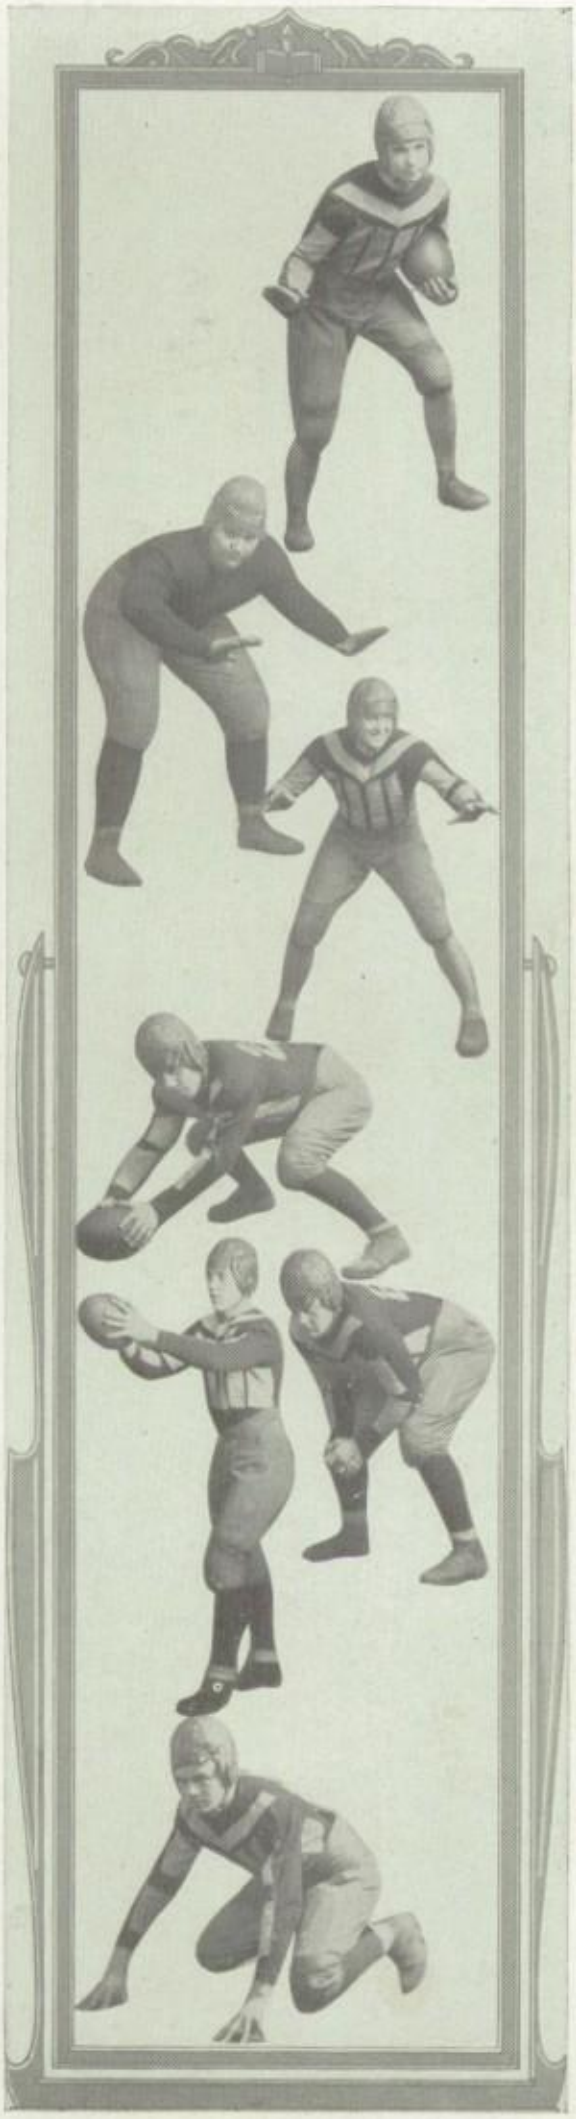
Snow's second year on the squad proved that he was a natural tackler and possessed an uncanny ability to sense plays. He played more minutes than any other man and much is expected next year.

LEONARD BOYD

Three years on the varsity has made Boyd respected and feared by every opposing team. He was shifted from tackle to end but it did not slow him. He stopped rallies and plays that would have otherwise been the team's downfall.

ROBERT HURTT

This was Bob's second year as a regular. He was a steady hard driving center in both offense and defense. Near the close of the season he was shifted to halfback where he proved to be as much at home as before. He has still another year to tread on the M. H. S. gridiron.



DEXTER GRUNDISH

In his second year as a varsity man he displayed great ability as a ball carrier. He also was equally good on defense playing a hard clean game. This is his last year with the M. H. S. gridders.

ROBERT WINGERT

This was Tiny's first year as a varsity man. He showed much ability in the responsible position of tackle. He proved his worth on defense and still has another year in M. H. S.

THOMAS GRIMES

Tom played end this year and without his smile and fighting spirit the team seemed incomplete. Having three more years to show his qualities he will prove a great asset to the team.

RICARD HODSON

Dick was one of the greatest defensive players of M. H. S. He was a steady and hard hitting center. Much depends upon his ability next year.

HERBERT CURRY

Curry was one of the greatest surprises of the season. He did not come out until his senior year and in this made up for his three year's absence. He was one of the greatest plungers that ever entered M. H. S.

EUGENE THOMPSON

Eugene has the grit and power to play the game hard and fair. He has two more years in helping M. H. S. to victory. He is known for his field running and hard hitting.

HAROLD PARNHAM

Harold soon proved that he could play real football and was much depended upon at guard position. He has still another year in exercising his football abilities.

ROBERT KIESS

Bert, in his second year on the varsity, has shown the fans and squad that he can play real football. In the next two years much is expected of him as a lineman.

MAX DRAKE

Max played a clean, hard, consistent game at end this year. He was a great help to the team and will be missed with graduation. This was his first year as varsity man.

ROBERT LETT

Although this was his first year on the varsity he proved to be a clean, steady and consistent defender for old M. H. S. He did well at quarterback and much is expected in 1929.

LAWRENCE MEINE

Lawrence has shown much improvement in the last two years and still has a season before closing his football career for M. H. S. He played guard with a determination and grit to win.

CHARLES FALCO

Charley was small in stature but made up for it in his ability to play the game and pick the weaknesses of the opposing team. He is expected to be a great factor in making next year a success.

PAUL SNYDER

As a senior, he played for the first time on the varsity team. He was a great asset and played a fine offensive and defensive game.

CLYDE OSBORN

Osborn made the varsity this year and judging from his playing has promise of another year of action. He played right end this year and has another to benefit his school.

FOOTBALL

The football season in which we were destined to be so victorious was opened when our team played at Goshen. Although the game ended with a 2 to 0 victory for our opponents it was a mental victory for Coach Swanson as Goshen had two men on their team that were picked on the "All State" eleven in '27. The only score received by the Hoosiers was due to good fortune on their part. We were outplayed in the first half of the game but we grew stronger for the third and final quarters of the battle. Our defense on forward passes was outstanding.

PERRYSBURG

'Pelier scored an easy 27 to 0 victory over Perrysburg. This was quite a surprise to the fans as our opponents had held Toledo Woodward Tech to a score of 12 to 0. After we had piled up 20 points in the first half Coach Swanson sent in a full team of substitutes and they did remarkably well. Our line's defense caused the Perrysburg lads to suffer defeat. As for the offense, 'Pelier made great gains through the line and around the ends.

NAPOLEON

Swooping down across Napoleon's gridiron like a blue and white cyclone Montpelier high school football team piled up an 18 to 0 victory against their strongest rivals for league honors. In fact it was the most decisive defeat in the history of football relations between these two schools and also gives 'Pelier the honors through having won three games in the past five years as against two for Napoleon. Many of the "breaks" went to Montpelier because we wer making them. The game was expected to be a real thriller and it more than lived up to advance notices. Hundreds of local fans drove to Napoleon to witness the battle and were well satisfied with the work of the team.

BRYAN

Montpelier rolled up a 9 to 0 score over Bryan in the 6th annual meeting of these two rivals. There was a heavy rain storm during the game which accounts for the small score as both teams were slowed up. All members of the local team were battled for every inch of the ground and presented a real fighting front which Bryan was unable to match.

PAULDING

Without the usual exertion our local gridders defeated Pauding with a score of 44 to 0. Montpelier fully believing all rumors brought from Paulding, expected a stiff battle, but conquered the opponents easily. Touchdowns numbered seven and were made by Clapp 2, Curry 2, Thomas 2, and Thompson 1.

M. H. S.—DEFIANCE

The varsity eleven traveled 28 miles to Defiance expecting an easy victory, only to be trampled down by the Defiance team with a score of 8 to 0. The defeat was partially due to several members of the home team being unable to play because of injuries. Though the Blue and White warriors made more first downs than their opponents their efforts were nullified by fumbling. Fortunately for us it was not a N. W. O. A. L. game.

M. H. S. vs. HOWE MILITARY ACADEMY

M. H. S. having suffered defeat the previous week, went on the field with the determination to avenge themselves. Howe came highly noted as a high scoring aggregation with several star players in their line-up. The game was practically even during the first three quarters. In the last quarter Grimes recovered a fumbled ball on the Howe seven yard line, placing the ball in scoring position. Augustine broke through the line making the necessary yardage for a touchdown. When the gun sounded to end the game the score was 6 to 0.

M. H. S. vs. DELTA

Coach sent the team on the field with instructions to play straight football as long as it proved profitable. M. H. S. score a touchdown as a result of the first kick-off. The second quarter was played just about even, Montpelier being superior by a very small margin. The same players started the third quarter. Two touchdowns were scored by varsity players during this quarter. In the last quarter M. H. S. scored one touchdown. The remainder of the game was played near Delta's goal. When the game ended Montpelier had one yard to go for a touchdown. The final score was 32 to 0.

WAUSEON

Although having a hospital list of about seven regulars, Coach Swanson was able to manipulate his football team so that they were able to take Wauseon into camp by a score of 19 to 2. Wauseon was threatening at several stages of the game, outplaying the locals the first few minutes. Even though considerably the worse for injuries, our boys played a splendid game. In fact every member of the team was fighting for every inch of ground gained, and helping round out a winning aggregation.

LIBERTY CENTER

Before the Liberty Center game it was confidently believed that Monteplier would win an easy victory, and it worked out just about as expected. The visitors put up a plucky fight especially during the first half of the game, but nevertheless the superstrategy of our men won for us a victory of 41 to 0.

THANKSGIVING DAY GAME

The Alma Mater met the Alumni in an effort to help an old friend. This friend is "Pint" who gave his health to support our school. Both teams battled fiercely for a lead and as the gun sounded in the last quarter the score stood 6 to 0 in favor of the Varsity.

BASKET BALL GAMES 1928-29

CLARENCE HAINES
MAX DRAKE
ROBERT AUGUSTINE
LAWRENCE MEINE

M. H. S. vs. STRYKER

The 1928-29 basket ball season opened when Montpelier played Stryker. The fellows played hard and gave the best they had yet lack of practive lost the game, score 27 to 15.

M. H. S. vs. EDGERTON

On December 14 Edgerton opened the season on the local floor. The team not being at its full force and lacking experience were five points behind when the game ended, the score being Edgerton 26, Montpelier 21.

M. H. S. vs. DELTA

The blue and white next traveled to Delta to play their first league game. Having improved from the two previous games the team was credited with their first victory by a score of 15 to 9.

M. H. S. vs. LIBERTY CENTER

In the second league game M. H. S. met Liberty Center on our own floor. Again the fighting spirit of the blue and white could not be broken down, and it placed another league game to its credit. The score was—Liberty Center 24, M. H. S. 26.

M. H. S. vs. STRYKER

We played the return game with Stryker here Jan. 12. Again Stryker was too fast for the local team, although they played a hard consistent game. When the final quarter ended Stryker was in the lead 34 to 16.

M. H. S. vs. WAUSEON

Wauseon came to M. H. S. with great hopes of success. The old spirit was sparkling from the eyes of the local five. With this the hopes of Wauseon weer shattered. The game ended with M. H. S. leading 31 to 29.

M. H. S. vs. BRYAN

On Jan. 18 we met our rival Bryan with great hopes of victory. The old teamwork and pep was lost giving Bryan a lead at the start which could not be covered up by the local squad. The game ended with Bryan leading by a score of 34 to 19.

M. H. S. vs. PIONEER

On Jan. 23 Pioneer came here. The squad could not get started and due to the fast playing and fine shooting Pioneer went home with the victory by a score of 41 to 13.

M. H. S. vs. WEST UNITY

On Jan. 25 the team traveled to West Unity with high hopes of coming home with another victory. The West Unity five however played a fast hard game and due to over con-

fidence, M. H. S. was left with the smaller score, it being West Unity 27, M. H. S. 12.

M. H. S. vs. KUNKLE

M. H. S. went to Kunkle with small hopes of victory. Kunkle had last year entered the finals at state and were just as strong this year. When the game ended they were leading by 21 points, score being Kunkle 49, M. H. S. 28.

M. H. S. vs. BRYAN

Having lost the game at Bryan the blue and white were out to win. It was a close, fast and hard fought game by both teams, with each proving their loyalty to their school. When the fourth quarter ended Bryan was leading by two points with a score of 23 to 21.

M. H. S. vs. NAPOLEON

On Feb. 5 M. H. S. played their first game with Napoleon. Both teams were out for a victory and played a hard clean game. Montpelier was not able to overcome the lead gained by Napoleon in the first half and lost by a score of 27 to 22.

M. H. S. vs. LIBERTY CENTER

The old fighting spirit was again with the squad, when they went to Liberty Center. The blue and white had scored 12 points before the game had actually got under way. When it ended the score was L. C. 10, M. H. S. 26.

M. H. S. vs. DELTA

On Feb. 15 Delta played on the local floor. The squad had little trouble in keeping a good lead and when the whistle blew M. H. S. was leading 37 to 19.

M. H. S. vs. NAPOLEON

With Napoleon leading the league M. H. S. went there for a victory. It was a fast clean game with close guarding by both teams. The score was tied with one minute to play when a field goal was made which won the greatest game of the season, the score being Napoleon 15, M. H. S. 17.

M. H. S. vs. WAUSEON

Not fully recovered from the Napoleon game M. H. S. went to Wauseon Feb. 22. The team played hard and were leading 11 to 7 the first half. They were not able to stop the Red and White the last half and lost 15 to 21.

M. H. S. AT THE TOURNAMENT

M. H. S vs. NAPOLEON

Again on March 1 the two blue and white teams met each other. Due to a fast start M. H. S. was leading the first half 16-14, but handicapped by the large floor were not able to stop Napoleon. The final score was Napoleon 31, M. H. S. 20.

GIRLS BASKET BALL

MISS COX (Coach)
ELIZABETH KONKLE
LEONIS NELSON
AUGUSTA HOUCK
DOROTHY KNECHT

Basket ball is the schools most popular sport for girls. It is a strengthening antidote for both physical and mental development. It applies to that type of girl who is full of pep and ready to regard the athletic requirements with sincerity at all times.

Although this season's team has not met with success the entire year, winning the game does not always mean victory. It is harder to be a good loser, than a good winner.

Experience is the best teacher and the losing games will be only an advantage to the candidates of next season's team.

STRYKER vs. MONTPELIER, DEC. 7

Montpelier started this year's basket ball season with their opponents at Stryker. Stryker having played a number of games previous to Montpelier, was in much better condition, having had more practice and was successful in defeating our team. As the game progressed Montpelier showed more skill in shooting baskets and at times outplayed Stryker but owing to the fact that Stryker had a good start we were unsuccessful in running up our score. The game ended with a score of 4914 in favor of Stryker.

MONTPELIER vs. EDGERTON, Dec. 14

One week later we met Edgerton on our home floor. At the beginning of the game both teams were wide awake and very alert. As the game progressed Edgerton succeeded in running up the highest score. Although we were again defeated our team showed great improvement which gave us encouragement for future games. The game ended with the score 36-12 Edgerton's favor.

LIBERTY CENTER vs. 'PELIER, Jan. 11

For our third game of the season we met Liberty Center on our own floor. Our girls played diligently in the first quarter, but from then on the team lost their enthusiasm and Liberty Center won a victory of 39-15.

STRYKER vs. MONTPELIER, Jan. 12

The next night after playing Liberty Center we met our opponents Stryker. The girls were very tired from the game the previous night and suffered a defeat of 45-11.

BRYAN vs. MONTPELIER, Jan. 18

Jan. 18 we journeyed to Bryan, our rival city to participate in a game which is always looked forward to. Blue and White entered the gym with vigor but in spite of this they

were again defeated, score 62-6.

PIONEER vs. MONTPELIER, Jan. 23

Jan. 23 we met Pioneer on our own floor. Soon after the game started Montpelier lost her pep and the score rose rapidly in favor of Pioneer. The girls tried hard during the last half to make oup their lost baskets, but it was too late. The game ended with a score of 43-14 in favor of Pioneer.

WEST UNITY vs. MONTPELIER

On Jan. 25 we played West Unity at West Unity. Both teams played very well but West Unity was more accurate in shooting baskets, giving them a victory of 18-9.

KUNKLE vs. MONTPELIER

Jan. 29 Montpelier went to Kunkle to receive her eighth defeat. Final score 26-14 in favor of Kunkle.

BRYAN vs. MONTPELIER

Feb. 1 our rival city Bryan came to Montpelier with flying colors and went home with a victory of 49-12.

ALVORDTON vs. MONTEPELIER, Feb. 8

On Feb. 8 our scheduled game with Alvordton was played. This evening was a joyful evening for the girls and for the school. This game was played with good sportsmanship taking the victory from Alvordton with a score of 31-15.

TRACK

Old M. H. S. entered the season with a spirit unsurpassed by their opponents. The team was unapproachable throughout the entire season, with the exception of one meet. "Toledo Scott High." Here our chargers met with much opposition which is to be expected fro mour city friends but nevertheless "Old M. H. S." showed the Toledoans some close and interesting races. The meet was won only by inches and parts of inches by Toledo.

The season ended with many of our contestants wearing medals and carrying honors for this part of the state.

The fellows wearing the Big Eagle Letters will never forget, and ever will recall the meets of "29."

INTRA-MURAL SPORTS

The Ohio State Department of Education requires ninety minutes of gymnasium class per pupil per week. Montpelier High School has endeavored to satisfy these requirements by instituting such classes. The work consists of calisthenics, setting up exercises, group plan and an organized basket ball league. The boys have been eager to respond to this and in a year or two M. H. S. will have a very well organized Department of Physical Education. All students on Varsity teams are exempted.

Those in charge are: Miss Cox, Mr. Swanson, and Mr. Daniels.

Montpelier Grade School Becomes a First Class Standard Elementary School

This certificate of Standardization is granted in recognition of achievements attained and the interest manifested by the patrons, pupils, teachers, superintendent and the board of education maintaining the school.

Montpelier School is the first school in the county to receive this honor.

Montpelier may well feel proud of their grade school and the excellent work being done by its thirteen teachers, principal and superintendent. Only by the cooperation of all concerned can such work be accomplished.

Many improvements have been made in the last five years. New chairs furnished, desks refinished, rooms redecorated and lights installed.

At preesnt the school grounds are being made more attractive by the addition of shrubbery, flowers and plants.

A school of the First Class must have a score of at least 360 points out of a possible 400.

Our school was credited with 382 of this number.

MARGARET HOSKINSON, *Principal*

JUNIOR HIGH FACULTY

MR. COX—History produces a social minded citizenry.

MISS BOYER—Fourth Grade. Good health habits are established; for an ounce of prevention is worth a pound of cure.

MISS HERRIMAN—Physical Education trains for citizenship by building upon a foundation of physical, mental and moral health.

MISS LESNETT—Third Grade. All subjects are correlated with language, using silent reading system. We stress accuracy and speed in arithmetic.

MISS TONER—English helps children to form the habit of using correct, clear and forceful English.

MISS NEWCOMB—First Grade. We lay the foundation stone of Education in Reading, Writing and Arithmetic.

MISS MOORE—Geography introduces the child to the world and shows him his place in it as well as interdependence of Nations.

MIIS HAINES—Third Grade, study all the subjects and display their learning in drawings, posters and song.

MRS. CARR—Reading teaches us to understand the treasured wealth of the world "Books". Three books must be read to receive a certificate.

MRS. WALTER—Second Grade. Nature work and geography are correlated so as to interest the small child. Projects are made on sand tables.

MISS ALLMAN—Arithmetic demands accuracy and precision. It is the key that unlocks all problems in life.

MISS NOFZINGER—Second Grade. We aim to arouse an interest and a desire for reading and start a foundation of arithmetic.

EIGHTH GRADE HISTORY

We are finishing the first lap of our journey of life. We are about to pass the milestone that marks the entrance to M. H. S.—where we will receive a new store of knowledge from a course of our own choice.

We are anxious to try out our skill in that new experience and our every endeavor will be to carry on each activity of the school. We pledge our loyal support and await our passports to M. H. S.

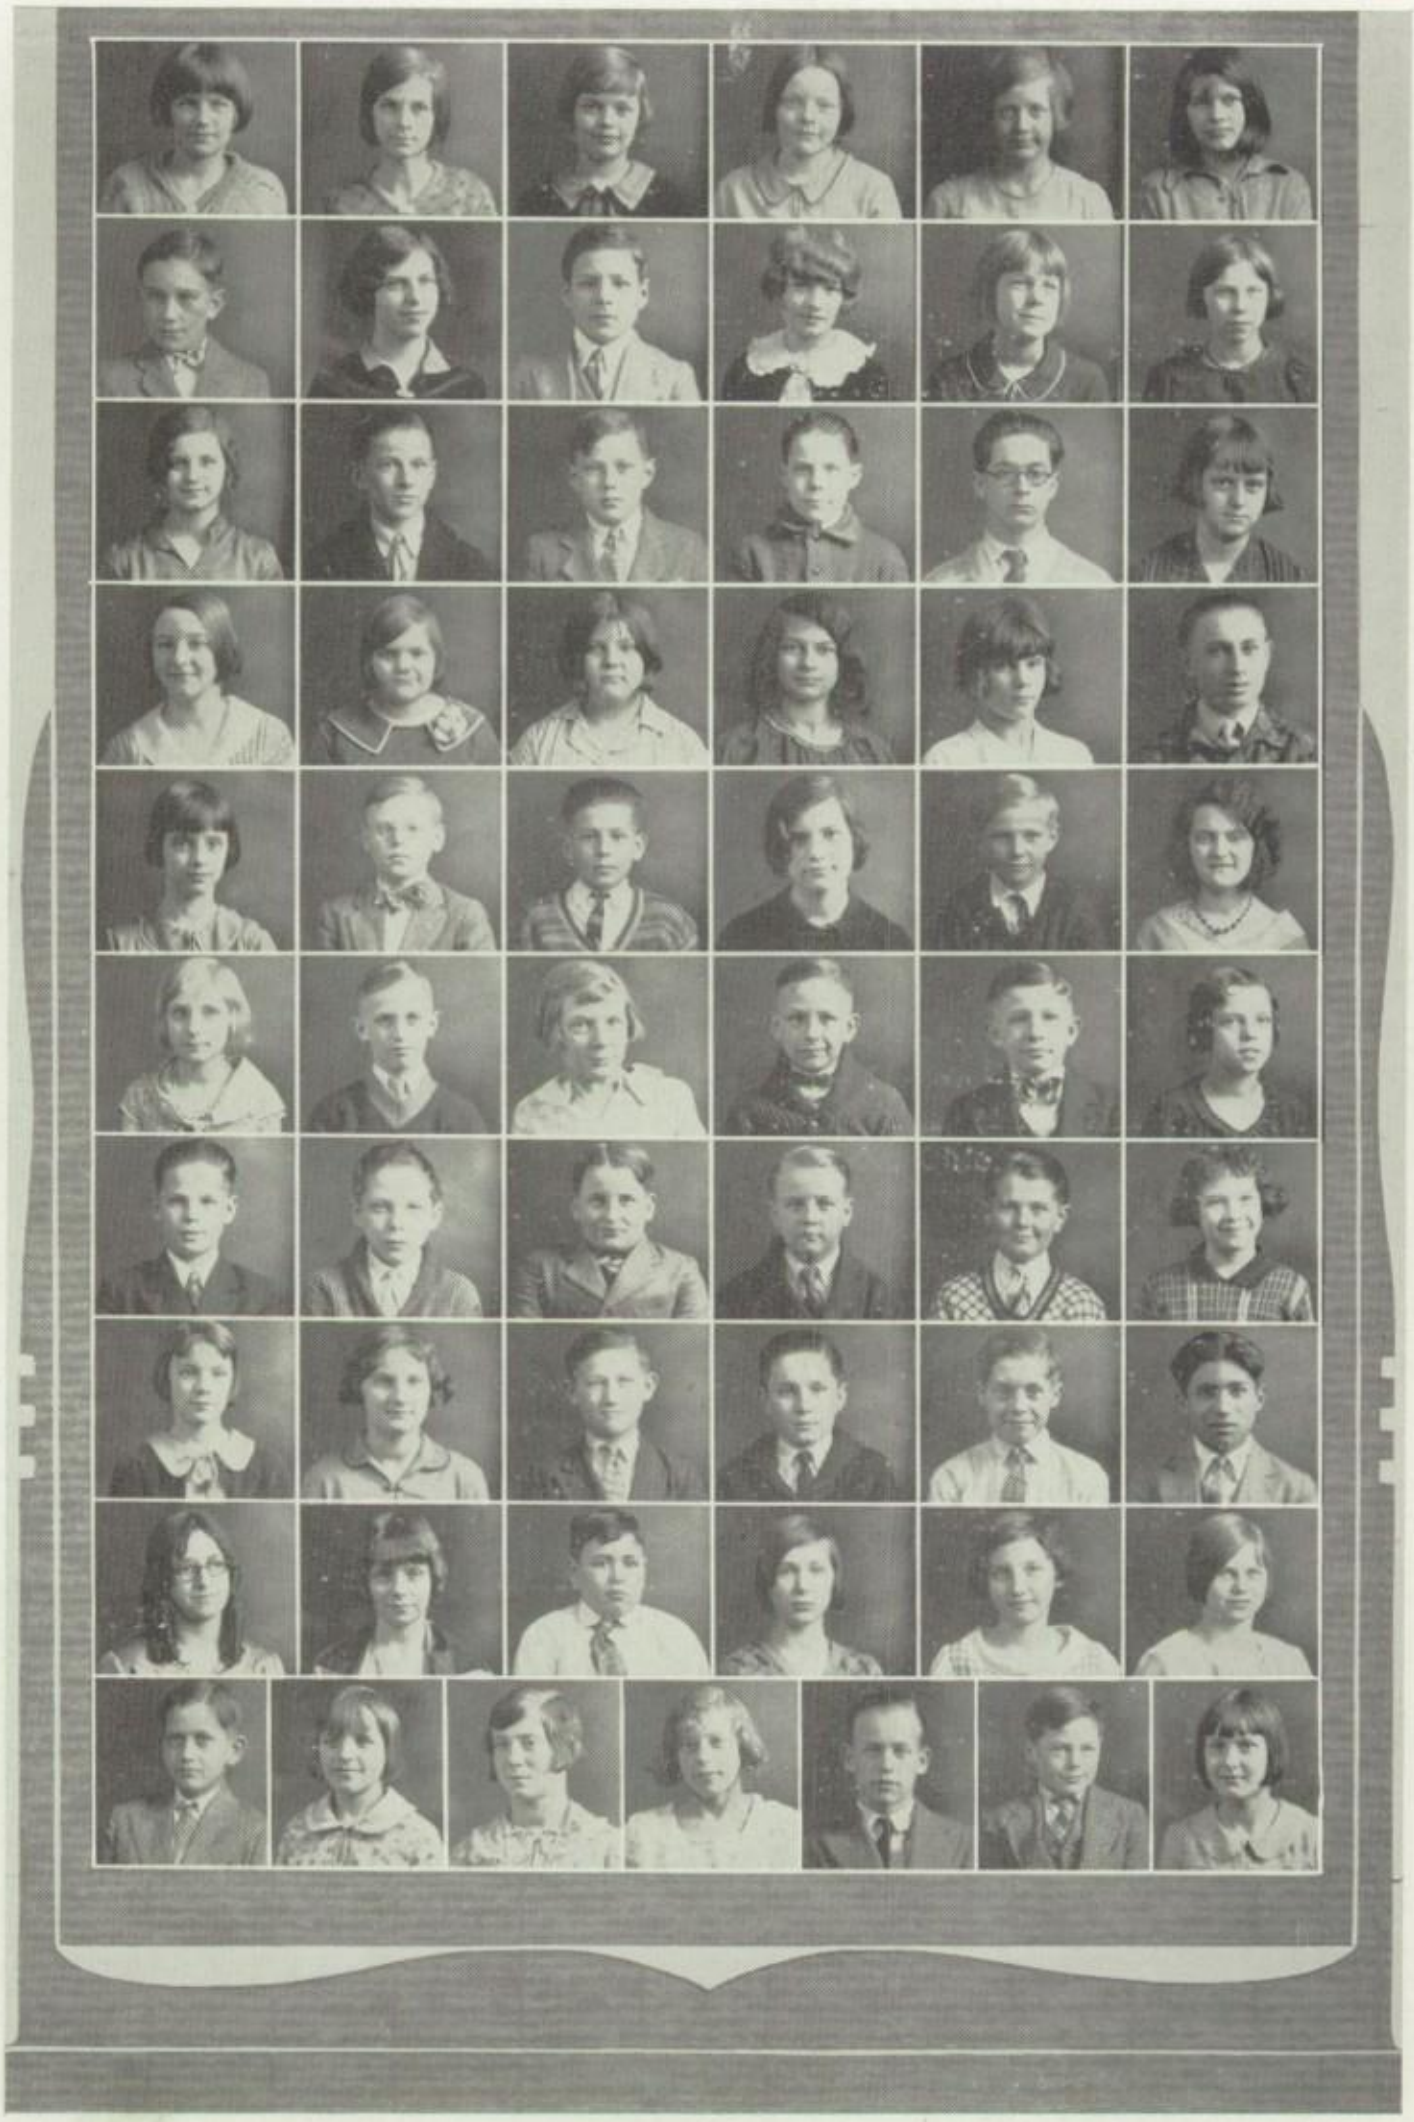
Eleventh row—Kathryn Wallace, Rachel Weitzel, Luella Wallace, Vivian Zeiters, Esther Zulch.

SEVENTH GRADE HISTORY

We are traveling at a great rate of speed through this educational era.

Having completed seven well spent years we have but one more in the elementary school, which we hope will bring us to the graduation service.

We are just beginning to get a broader outlook on life and realize to some extent just what the future holds in store for us and trust that our journey together may be pleasant and profitable.



SIXTH GRADE

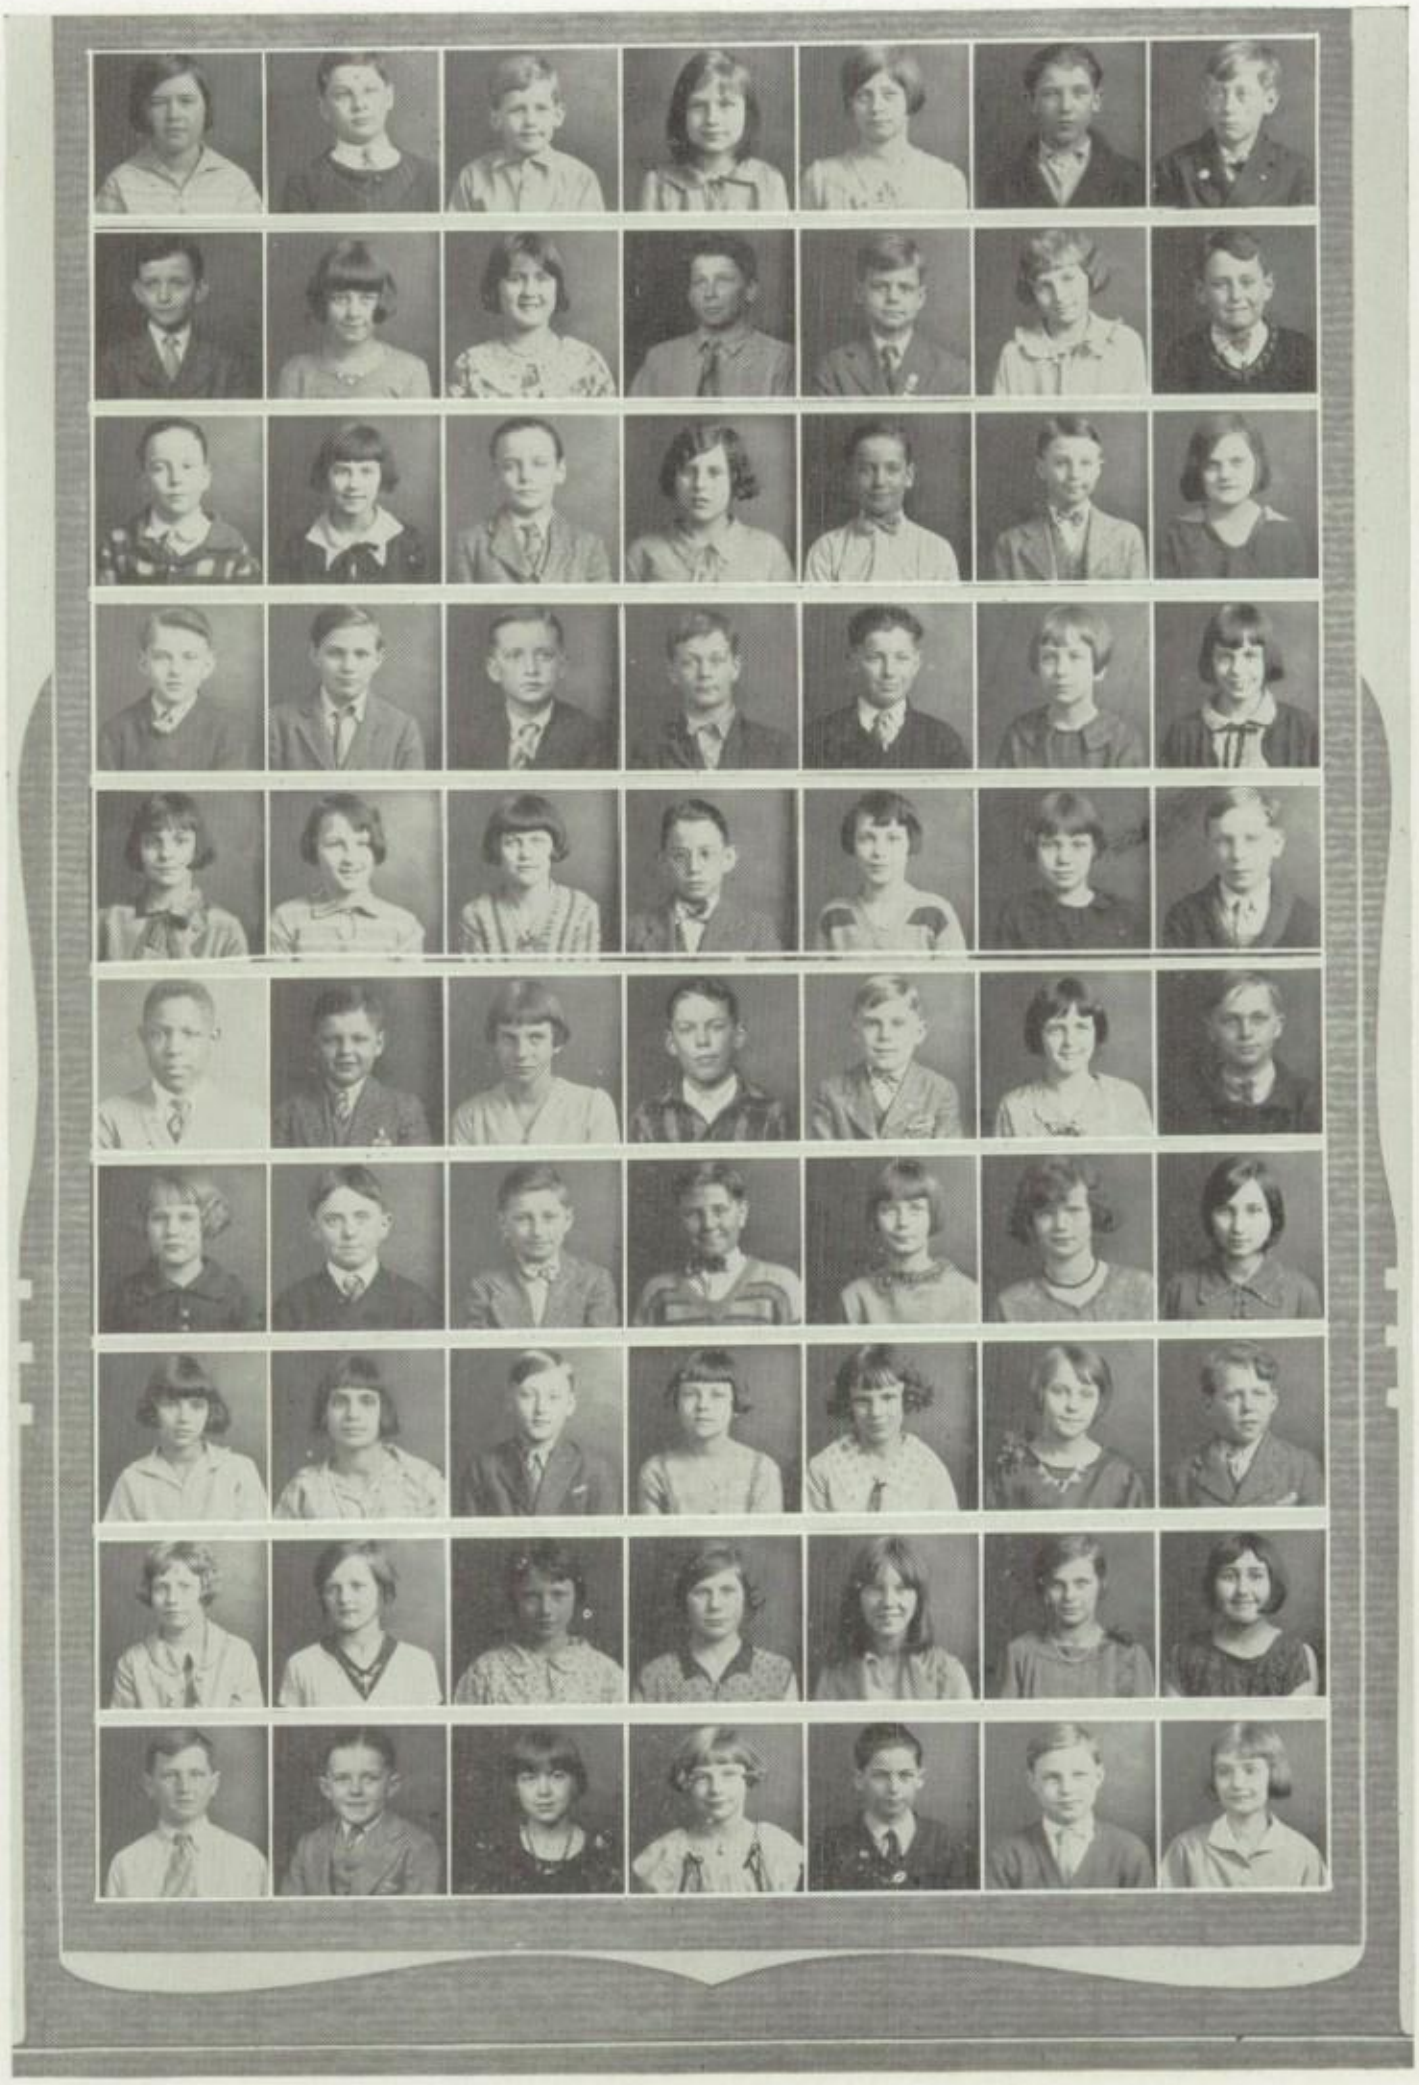
Tenth row—Robert Seward, Mae Stahl, Thelma Strayer, Gertrude Teats, Oral Teats, Lowell Wilkins, Gretchen Weidner.

SIXTH GRADE HISTORY

We have traveled on our road to knowledge for six years, each time gaining a few miles on that long and endless journey for we are always learning. Each year we find a few more travelers as well as losing others.

We are always interested when we see new faces for we wonder if they have gained as much in other schools as we. However these folks soon become a part of our regime and with play and study are as one.

We are looking forward with anticipation to our entrance on the seventh lap of the journey and trust that we may be an honor to the ranks.



FIFTH GRADE

Tenth row—Robert Tingle, Bobby Wallace, Rachael Weidner, Marian Welch, Orvel Yarger.

FIFTH GRADE HISTORY

The materials for character are gathered and the long but plastic process of molding is started in the fifth grade. It is a slow and difficult task but the start determines the finish on the long race.

It is the duty of everyone to fill the mold with the finest of materials so the finished product will be worthy of notice.

The pupils treat events lightly and little do they realize the value of knowledge until sometime when it is too late and success is far from their reach.

So the year rolls by and they are a trifle nearer their goal, where they take the lamp of learning with a pledge to hold it high and carry it above the heads of all so that those who follow may understand the necessity of reaching a high goal.

Back Row—Mr. Cox coach; Charles Brannan, Leroy Franklin, Richard Kanauer, Robert Hinkle, Student Manager.

Front Row—Jack Horner, Amos Wisman, Harold Dick, Robert Newcomb, Theodore Ihrig.

JUNIOR HIGH BOYS' BASKET BALL

With Mr. Cox as our coach, the boys, on December twentieth, went to Kunkle for the first game of the season. We were defeated by a score of eighteen to eight, but on the return game we won five to twelve. During the season we played Kunkle, Pioneer, West Unity, Bryan, Napoleon, and Stryker. We won four games: West Unity, Bryan, the return game of Pioneer and the return game of Kunkle and lost seven, but in the tournamnt we won two games, making six in all. The Junior High Tournament was held at West Unity on March sixteenth. We played West Unity and Pioneer, winning both and receiving the cup.

The first team was Horner c., Dick r.g., Franklin r.f., Newcomb l.f., Wisman and Ihrig s.g. We appreciated the work of Mr. Cox both as a teacher and coach.

ATHLETIC ASSOCIATION

On Sept. 28, 1928, the Junior High Athletic Association was organized for the year 1928-29 with a membership of 79.

The officers were elected as: Pres., Jack Horner; Vice President, David Opdyke; Secretary and Treasurer, Donna Knecht.

The general work of the Association was to support the teams and further the interest in all Athletics.

The Association was entertained with a party on Nov. 19, 1928, and enjoyed readings and piano selections by various members.

A very successful and prosperious year was closed by a meeting in which letters

Standing—Genevieve Hillard, Martha Rothenberger, Miss Cox, Virginia Miser, Lamoine Stuller.
Front rou—Georgia Kier, Rosalie Boyd, Jane Wingard, Capt., Naomi Grimes, Osie Mae Grimes.

JUNIOR HIGH GIRLS BASKET BALL

Due to the scarcity of Junior High Girls teams we were unable to schedule more than one game this year. During the early part of the season, Pioneer met us on our own floor and defeated us 20-4. By the end of the season th girls improved greatly—especially in sped and accuracy. We feel that there will be splendid material for a future High School team.

In the inter-class tournament the seventh graders were the champions.

were given to the boys in the team, yell leaders and the Manager. A very appropriate gift was presented to Coach Cox, showing in a small measure their great appreciation for his work.

Mr. Cox has been the director of Athletics of the Junior High for the past two years. During that time he has done much in Athletics.

Too much cannot be said of his ability in this line. He has produced some record breakers in track and worked up a fine team this year.

The work of Mr. Cox has been greatly appreciated both by the students and the team and they wish him great success in the future.

MONTPELIER SCHOOL BAND

The Montpelier Public School band was organized in November, 1927, under the direction of C. E. Broderick. The band has progressed rapidly and after six months of training were present at school and public gatherings. It is really two separate organizations—the brass band, composed entirely of boys and the Saxophone band composed entirely of girls. The average age of the boy's band, which numbers forty-three is twelve years.

The girl's organization is a full arrangement of saxophones. Each section is represented and the ensemble, in many respects, resembles the pipe organ. This is the first organization of its kind in the state and to our knowledge the only one. The average age of the girl's band, which numbers twenty-six, is thirteen years.

GRADE SCHOOL PARENT TEACHER ASSN.

In the Fall of 1928 our work began by organizing our Mother's Club into a unit of the National Congress of Parents and Teachers and affiliating with the National and State Associations. Our present membership is one hundred and twenty-one.

Our object is to promote child welfare in home, school, church and community, and to bring into closer relation the home and the school, that parents and teachers may cooperate intelligently in the training of the child. To further this object we again brought to Montpelier a first class Lyceum Course which has been liberally patronized not only by the Parents and Teachers, but the community at large.

We have also placed in the Grade schools Ohio Reading Circle books, giving to the child literature suitable to his age.

Our rgular meetings have been largely attended and the co-operation between parents and teachers has been very enthusiastic.

The Founders' Day celebration, with able speakers, followed by a mixer in the Gymnasium proved not only a means of promoting good fellowship but made the members more conversant with the history and growth of the organization and its value to home, school, church and community.

"Save? Huh!" said Jim. "I don't earn enough to save. But I'll begin when I earn more."

"That's what I used to think," said the older man, "but I found it didn't work. Every time my pay was boosted I spent more money, human nature, I suppose.

"Then one day I woke up, depositing a dollar every pay day. After a while I found I could just as easily make it two dollars, then five, then ten.

"Yes, Jim, the time to begin is now. Make your start, stick to it, and the habit will make your progress easier and easier."

WE ARE

LIFE SAVERS WIFE SAVERS

WHY?

BECAUSE

We have eliminated washday from a large number of families—We use nothing but the best of materials—We wash everything that is washable—We use clean, pure, filtered, soft water—We change the water ten (10) times on each family washing—We maintain quality--good service--always dependable—The best is the cheapest—We do it better and for less than it can be done at home.

THE TORCH

The oil of our torch is character true,
Burning forever a truthful hue.
On the following classes we do depend
To keep it lighted until the end.

Oh, many of times the torch burns low,
We do not think or seem to know,
For just how far we go away
Before our love we start to slay.

Then like a bound of instant thought,
We turn to fight for the truth we sought.
No storms nor fires can keep us back,
With the torch of Character we make our track.

On through sunshine rain and snow,
Always gaining never slow,
Never tiring, willing to give
With Character of truth we wish to live.
